Excel 2003: The Missing Manual Matthew MacDonald, 2004-12-22 Whether you are an Excel neophyte a sophisticate who knows the program inside out or an intermediate level plodder eager to hone your skills Excel The Missing Manual is sure to become your go to resource for all things Excel Covering all the features of Excel 2002 and 2003 the most recent versions for Windows Excel The Missing Manual is an easy to read thorough and downright enjoyable guide to one of the world's most popular and annoyingly complicated computer programs Never a candidate for the most user friendly of Microsoft programs Excel demands study practice and dedication to gain even a working knowledge of the basics Excel 2003 is probably even tougher to use than any previous version of Excel However despite its fairly steep learning curve this marvelously rich program enables users of every stripe to turn data into information using tools to analyze communicate and share knowledge Excel can help you to collaborate effectively and protect and control access to your work Power users can take advantage of industry standard Extensible Markup Language XML data to connect to business processes To unleash the power of the program and mine the full potential of their database talents users need an authoritative and friendly resource None is more authoritative or friendlier than Excel The Missing Manual Not only does the book provide exhaustive coverage of the basics it provides numerous tips and tricks as well as advanced data analysis programming and Web interface knowledge that pros can adopt for their latest project Neophytes will find everything they need to create professional spreadsheets and become

confident users Excel The Missing Manual covers worksheet basics formulas and functions organizing worksheets charts and graphics advanced data analysis sharing data with the rest of the world and programming If you buy just one book about using Excel this has GOT to be it This book has all you need to help you excel at Excel **MS Word 2000 Student Manual** Scot Ober,2000 Absolute Beginner's Guide to Microsoft Office Word 2003 Laura Acklen,2004 Provides step by step instructions on creating a variety of documents with the latest version of Microsoft Word **Office 2007: The Missing Manual** Chris Grover,Matthew MacDonald,E. A. Vander Veer,2007-04-27 Quickly learn the most useful features of Microsoft Office 2007 with our easy to read four in one guide This fast paced book gives you the basics of Word Excel PowerPoint and Access so you can start using the new versions of these major Office applications right away Unlike every previous version Office 2007 offers a completely redesigned user interface for each program Microsoft has replaced the familiar menus with a new tabbed toolbar or ribbon and added other features such as live preview that lets you see exactly what each option will look like in the document before you choose it This is good news for longtime users who never knew about some amazing Office features because they were hidden among cluttered and outdated menus Adapting to the new format is going to be a shock especially if you're a longtime user That's where Office 2007 The Missing Manual comes in Rather than present a lot of arcane detail this quick friendly primer teaches you how to work with the most used Office features with four separate sections covering the four programs The book offers a walkthrough of Microsoft's redesigned Office user interface before taking you through the basics of creating text documents spreadsheets presentations and databases with Clear explanations Step by step instructions Lots of illustrations Plenty of friendly advice It's a great way to master all 4 programs without having to stock up on a shelf load of different books This book has everything you need to get you up to speed fast Office 2007 The Missing Manual is truly the book that should have been in the box Excel 2007: The Missing Manual Matthew MacDonald,2006-12-27 Microsoft Excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft's documentation is as scant as ever so even if users can find advanced features they probably won't know what to do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It's a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information
