Information and Communication Technology in Physical Education

Dr. Rakesh Gupta, 2021-05-19 Information and Communication Technology ICT is an extended term for Information
 Technology IT which stresses the role of unified communications The term ICT is also used to refer to the convergence of
 audio visual and telephone networks with computer networks through a single cabling or link system There are large
 economic incentives huge cost savings due to elimination of the telephone network to merge the telephone network with the
 computer network system using a single unified system of cabling signal distribution and management However ICT has no
 universal definition as the concepts methods and applications involved in ICT are constantly evolving on an almost daily basis
 The broadness of ICT covers any product that will store retrieve manipulate transmit or receive information electronically in
 a digital form e g personal computers digital television email robots For clarity Zuppo provided an ICT hierarchy where all
 levels of the hierarchy contain some degree of commonality in that they are related to technologies that facilitate the transfer
 of information and various types of electronically mediated communications Skills Framework for the Information Age is one
 of many models for describing and managing competencies for ICT professionals for the 21st century Physical education also
 known as Phys Ed PE Gym or Gym class and known in many Commonwealth countries as physical training or PT is an
 educational course related of maintaining the human body through physical exercises i e calisthenics It is taken during
 primary and secondary education and encourages psychomotor learning in a play or movement exploration setting to
 promote health Information and Communication Technologies ICT in the field of physical education by the professed and the
 students Finally the main problems related to the use of these technologies in classrooms are analyzed All this in order t to
 shed light on a very topical issue regarding the education of our youth Studies show that ICTs are increasingly present in the
 field of physical education but much remains to be done to make an effective use of them in education
