This book provides a comprehensive and state of the art overview of simulation development technologies and implementation including real world examples and results followed by a preview of what's on the horizon that will further revolutionize the industry. More than a handful of books have been written on the use of simulations for training purposes but this book focuses solely on simulations in employee selection contexts e.g. hiring promotion making it a truly unique and valuable resource for both practitioners and academics. The science and practice of employee selection has advanced at a steady pace over the past two or three decades. However recent advancements in both technology and assessment methods have been the catalyst for an evolutionary leap in the use of simulations in this area.

Blended Basic Language Courses Hope Anderson, 2018-03-15 Blended Basic Language Courses Design Pedagogy and Implementation examines lower division blended courses in fifty two second language programs at U.S. colleges and universities. Drawing upon a large scale original study of language faculty instructors program directors and students who have experience with blended classes of thirteen languages other than English this volume provides new information about the breadth of blended course designs and implementation strategies in use in basic language programs. The mixed methods study conducted with surveys and interviews recommends ways that institutions departments and instructors can make the most of digital pedagogy to support student learning both in officially blended courses and at all levels of technological integration from fully face to face to fully online.

Disruptive Classroom Technologies Sonny Magana, 2017-05-04 Timely and powerful this book offers a new framework to elevate instructional practices with technology and maximize student learning. The T3 Framework helps teachers categorize students learning as translational transformational or transcendent sorting through the low impact applications to reach high impact usage of technologies. Teachers and leaders will find Examples of technology use at the translational transformational and transcendent levels. Activities guides and prompts for deeper learning that move technology use to higher levels of the T3 Framework. Evaluative rubrics to self assess current technology use establish meaningful goals and track progress towards those goals.
