

As Project has several other views and options so you can configure your Project Plan to suit your requirements. Try to make sure that the Indicator column is always visible so that I can check for Constraints (for explanation of constraints see our [MS Project page](#)) I also like to show both the Resource and Resource columns, so that I can check that all of the tasks have the correct dependencies. As you get used to Project you will feel a set up that works for you.

Configuring the plan

Follow these steps to configure your plan and stage it with your project.

Set the project start date

Set the project start date so that it matches the start of your project.

Select Project > Project Information

Use the calendar to select your start date

For the moment leave all the other fields on their default settings.

Target non-working time

It will be [quite confusing](#) if your project plan assumes resources are working on public holidays or when your project team are working all possible days you need to enter non-working time.

Go to Tools > Change Working Time

Select the date and enter a name in the exceptions table
