**A Framework for Assessing Effects of the Food System** National Research Council, Institute of Medicine, Board on Agriculture and Natural Resources, Food and Nutrition Board, Committee on a Framework for Assessing the Health, Environmental, and Social Effects of the Food System, 2015-06-17 How we produce and consume food has a bigger impact on Americans well being than any

other human activity The food industry is the largest sector of our economy food touches everything from our health to the environment climate change economic inequality and the federal budget From the earliest developments of agriculture a major goal has been to attain sufficient foods that provide the energy and the nutrients needed for a healthy active life Over time food production processing marketing and consumption have evolved and become highly complex The challenges of improving the food system in the 21st century will require systemic approaches that take full account of social economic ecological and evolutionary factors Policy or business interventions involving a segment of the food system often have consequences beyond the original issue the intervention was meant to address A Framework for Assessing Effects of the Food System develops an analytical framework for assessing effects associated with the ways in which food is grown processed distributed marketed retailed and consumed in the United States The framework will allow users to recognize effects across the full food system consider all domains and dimensions of effects account for systems dynamics and complexities and choose appropriate methods for analysis This report provides example applications of the framework based on complex questions that are currently under debate consumption of a healthy and safe diet food security animal welfare and preserving the environment and its resources A Framework for Assessing Effects of the Food System describes the U S food system and provides a brief history of its evolution into the current system This report identifies some of the real and potential implications of the current system in terms of its health environmental and socioeconomic effects along with a sense for the complexities of the system potential metrics and some of the data needs that are required to assess the effects The overview of the food system and the framework described in this report will be an essential resource for decision makers researchers and others to examine the possible impacts of alternative policies or agricultural or food processing practices

*Critical Perspectives on Agrarian Transition* B. B. Mohanty, 2016-01-29 This book evaluates the relevance of classical debates on agrarian transition and extends the horizon of contemporary debates in the Indian context linking national trends with regional experiences It identifies new dynamics in agrarian political economy and presents a comprehensive account of diverse aspects of capitalist transition both at theoretical and empirical levels The essays discuss several neglected domains in agricultural economics such as discursive dimensions of agrarian relations and limitations of stereotypical binaries between capital and non capital rural and urban sectors agriculture and industry and accumulation and subsistence With contributions from major scholars in the field this volume will be useful to scholars and researchers of agriculture economics political economy sociology rural development and development studies *The role of agriculture and the agro-processing industry for development in Egypt: An overview* El-Enbaby, Hoda, Figueroa, Jose Luis, El-Didi, Hagar, Breisinger, Clemens, 2016-12-22 In order to complement the ongoing macroeconomic and safety net reforms in Egypt it is important to foster additional sector specific economic growth especially in sectors that are good at creating jobs and reducing poverty One sector that may help foster socioeconomic development in coming years is agriculture and related agro processing

industries This paper shows that agriculture in Egypt continues to play a relatively important role in the economy compared to other mid dle income countries The sector s stable growth performance has proved to be a reliable contributor to economy wide output growth over the past decades The underlying productivity gains have prevented the country s food import depend ency ratio from rising in spite of rapidly growing food demand Planning for Agriculture and Sustainable Food Systems Wayne Caldwell,Christopher Fullerton,Sara Epp,2023-08-07

In this second edition of The Sociology of Food and Agriculture students are provided with a substantially revised and updated introductory text to this emergent field The book begins with the recent development of agriculture under capitalism and neo liberal regimes and the transformation of farming and peasant agriculture from a small scale family run way of life to a globalized system Topics such as the global hunger and obesity challenges GM foods and international trade and subsidies are assessed as part of the world food economy The final section concentrates on themes of sustainability food security and food sovereignty The book concludes on a positive note examining alternative agri food movements aimed at changing foodscapes at levels from the local to the global With increased coverage of the financialization of food food and culture gender ethnicity and justice food security and food sovereignty the book is perfect for students with little or no background in sociology and is also suitable for more advanced courses as a comprehensive primer All chapters include learning objectives suggested discussion questions and recommendations for further reading to aid student learning **Assessing the environmental impact of agriculture** Prof. Bo P.

Weidema,2019-08-27 Assesses current best practice and methodological issues in life cycle assessment LCA methodology for agriculture Looks in detail at particular types of environmental impact such as nutrient Reviews the environmental assessment and optimization of sectors such as crops ruminant and other livestock production as well as by products

*Structural change and poverty reduction in Ethiopia: Economy-wide analysis of the evolving role of agriculture* Dorosh, Paul,Thurlow, James,Kebede, Frehiwot Worku,Ferede, Tadele,Taffesse, Alemayehu Seyoum,2018-09-06 This paper explores these issues for Ethiopia utilizing an economy wide computable general equilibrium CGE model based on a detailed social accounting matrix SAM We present the results of four alternative investment scenarios faster investment in i cities ii crop agriculture iii the rural non farm sector and agro industry and iv livestock The simulations suggest that investments in cities generate faster economic growth and structural transformation However given the large share of the population with incomes linked to agriculture and the rural economy investments in the rural economy are likely to continue to be more pro poor than urban public investments through the mid 2020s After the mid 2020s investments in cities become more pro poor In short though rapid economic growth and structural transformation have diminished the relative importance of the agricultural sector in Ethiopia s economy continued public investments in agriculture and the broader agri food system

remain crucial for equity and poverty alleviation in Ethiopia as well as for reducing food import dependency *Transatlantic Food and Agricultural Trade Policy* Timothy E. Josling, Stefan Tangermann, 2015-05-29 *Transatlantic Food and Agricultural Trade Policy* traces the past fifty years of transatlantic trade relations in the area of food and agricultural policy from early skirmishes over chicken exports to ongoing conflicts over biotech foods and hormone use

**Soy, Globalization, and Environmental Politics in South America** Gustavo de L. T. Oliveira, Susanna B. Hecht, 2017-10-24 Soy in South America constitutes one of the most spectacular booms of agro industrial commodity production in the world It is the pinnacle of modernist agro industrial practices serving as a key nexus in food feed fuel production that underpins the agribusiness conservationist discourse of land sparing through intensification Yet soy production is implicated in multiple problems beyond deforestation ranging from pesticide drift and contamination to social exclusion and conflicts in frontier zones to concentration of wealth and income among the largest landowners and corporations This book explores in depth the complex dynamics of soy production from its diverse social settings to its transnational connections examining the politics of commodity and knowledge production the role of the state and the reach of corporate power in everyday life across soy landscapes in South America Ultimately the collection encourages us to search and struggle for agroecological alternatives through which we may overcome the pitfalls of this massive transnational capitalist agro industry This book was originally published as a special issue of *The Journal of Peasant Studies*

**Advances in Groundwater Governance** Karen G. Villholth, Elena Lopez-Gunn, Kirstin Conti, Alberto Garrido, Jac Van Der Gun, 2017-12-14 This book addresses groundwater governance a subject internationally recognized as crucial and topical for enhancing and safeguarding the benefits of groundwater and groundwater dependent ecosystems to humanity while ensuring water and food security under global change The multiple and complex dimensions of groundwater governance are captured in 28 chapters written by a team of leading experts from different parts of the world and with a variety of relevant professional backgrounds The book aims to describe the state of the art and latest developments regarding each of the themes addressed paying attention to the wide variation of conditions observed around the globe The book consists of four parts The first part sets the stage by defining groundwater governance exploring its emergence and evolution framing it through a socio ecological lens and describing groundwater policy and planning approaches The second part discusses selected key aspects of groundwater governance The third part zooms in on the increasingly important linkages between groundwater and other resources or sectors and between local groundwater systems and phenomena or actions at the international or even global level The fourth part finally presents a number of interesting case studies that illustrate contemporary practice in groundwater governance In one volume this highly accessible text not only familiarizes water professionals decision makers and local stakeholders with groundwater governance but also provides them with ideas and inspiration for improving groundwater governance in their own environment
