

7. Select Fan Speed: Press the "Speed" button to change the fan speed. The indicator light will move from left to right. Once "high" is reached the cycle will start over again at "Low". "high" fan speed (recommended) helps the food cook faster, and improves browning. For slower cooking you may use "Medium" or "Low" fan speed. (Note: you may change the fan speed during cooking by pressing the "Speed" button).
8. To begin cooking, press the "Start" button. The unit will not operate unless time, temperature and fan speed are set and safety handle (or lid) is down. (Note: Unplugging the oven will erase all settings).
9. When the timer reaches "00:00", the cooking cycle is finished and the appliances will beep 8 times. At the same time, the green light goes off but the temperature indicator light is still on. If the oven temperature is over 150°C (300°F), the fan speed indicator light will flash and the fan will continue to operate to allow the heating element to cool. When the oven temperature drops down to 150°C (300°F), the fan will stop operating and the fan speed indicator light will stop flashing.
10. Press the "Clear" button to reset all functions. The timer will be reset to "00:00", temperature indicator light shut off and timer will stop. The fan will stop operating while the oven temperature is below 150°C (300°F). However, if the oven temperature is over 150°C (300°F), the fan speed will switch to low speed and start to dissipate heat. At the same time, the speed indicator light stays at the original position and flashes until the oven temperature is dropped down to 150°C (300°F).
11. When the oven temperature reaches the selected temperature during cooking. The temperature indicator light will flash. However, when the oven temperature drops below the selected temperature, the light will stay at "on" again without flashing.
12. Thaw Function: The Thaw setting allows thawing for delicate foods and particularly those items which require gentle defrosting. Rather than leaving them on a benchtop they may be defrosted in the closed hygienic environment of the Oven.
