Thomas, 2017-08-04 Providing a practical guide to the training and assessment of non technical skills within high risk industries this book will be of direct interest to safety and training professionals working within aviation healthcare rail maritime and other high risk industries Currently each of these industries are working to integrate non technical skills into their training and certification processes particularly in light of increasing international regulation in this area However there is no definitive guidance to assist practitioners within these areas with the design of effective non technical skills training and assessment programs This book sets out to fully meet this need It has been designed as a practically focussed

companion to the 2008 book *Safety at the Sharp End* by Flin O Connor and Crichton While *Safety at the Sharp End* provides the definitive exploration of the need for non technical skills training and examines in detail the main components of non technical skills as they relate to safe operations the text does not focus on the nuts and bolts of designing training and assessment programs To this end *Training and Assessing Non Technical Skills A Practical Guide* provides an extension of this work and a fitting companion text
