Glory Of Rome Campaign:

Glory of Rome Campaign Sourcebook David Pulver,1993-11-01 **Rome's Greatest Defeat** Adrian

Murdoch,2008-07-14 In AD 9 half of Rome's Western army was ambushed in a German forest and annihilated Three legions three cavalry units and six auxiliary regiments some 25 000 men were wiped out It dealt a body blow to the empire's imperial pretensions and was Rome's greatest defeat No other battle stopped the Roman empire dead in its tracks Although one of the most significant and dramatic battles in European history this is also one which has been largely overlooked Drawing on primary sources and a vast wealth of new archaeological evidence Adrian Murdoch brings to life the battle itself the historical background and the effects of the Roman defeat as well as exploring the personalities of those who took part

The Life and Campaigns of Napoleon Bonaparte J. W. Robertson,1815 1993 TSR Master Catalog TSR, Inc,1993

The Roman Empire from Severus to Constantine Patricia Southern,2015-05-15 The third century of the Roman Empire is a confused and sparsely documented period punctuated by wars victorious conquests and ignominious losses and a recurring cycle of rebellions that saw several Emperors created and eliminated by the Roman armies In AD 260 the Empire almost collapsed and yet by the end of the third century the Roman world was brought back together and survived for another two hundred years In this new edition of *The Roman Empire from Severus to Constantine* Patricia Southern examines the anarchic era of the soldier Emperors that preceded the crisis of AD 260 and the reigns of underrated and sometimes maligned Emperors such as Gallienus Probus and Aurelian whose determination and hard work reunited and re-established the Empire Their achievements laid the foundations for the absolutist sacrosanct rule of Diocletian honed to ruthless perfection by Constantine whose reign transformed the pagan Empire into a Christian state The successes and failures of the rulers of the Roman world of the third century and the role of the armies and the civilians are re-assessed in this revised and expanded edition of *The Roman Empire from Severus to Constantine* which incorporates the latest thinking of modern scholars and has been extended to cover the reign of Constantine and the foundations he laid on which the Christian empire was built This is a crucial volume for students of this fascinating period in Roman history and provides invaluable background for anyone interested in the fall of Rome the adoption of Christianity and the establishment of the Byzantine Empire **Agricola's Campaigns in Scotland** James Kenworthy,1981 **Decisive Campaigns of the Second**

World War John Gooch,2012-11-12 Success or defeat in the Second World War turned less on winning or losing battles than on winning or losing campaigns This volume reassesses the importance of seven major campaigns for the outcome of the war The authors examine a wide range of factors which influence success or failure including strategic planning logistics combat performance command and military intelligence This book represents a novel contribution to the study of the Second World War *The Media Offensive* Alexander G. Lovelace,2022-05-25 World War II was a media war President Franklin D

Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders

decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley s concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark s hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery s remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units The Media Offensive offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press
