Weiner, John R. Graham, Jack A. Naglieri, 2012-10-16 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do. This award-winning twelve-volume reference covers every aspect of the ever-fascinating discipline of psychology and represents the most current knowledge in the field. This ten-year revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology.

Handbook of Test Development Thomas M. Haladyna, Steven M. Downing, 2011-04-26 Despite the fact that test development is a growth industry that cuts across all levels of education and all the professions, there has never been a comprehensive research-oriented Handbook to which everyone—developers and consumers—can turn for guidance. That is the mission of this book. The Handbook of Test Development brings together well-known scholars and test development practitioners to present chapters on all aspects of test development. Each chapter contributor is not only a recognized expert with an academic and research background in their designated topic; each one has also had hands-on experience in various aspects of test development. This thirty-two chapter volume is organized into six sections: foundations, content, item development, test design, test production and administration, and post-test activities. The Handbook provides extensive treatment of such important but unrecognized topics as contracting for testing services, item banking, designing tests for small testing programs, and writing technical reports. The Handbook is based on the Standards for Educational and Psychological Testing, which serve as the foundation for sound test development practice. These chapters also suggest best test development practices and highlight methods to improve test validity evidence. This book is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services, and credentialing agencies, state and local boards of education, and academic libraries serving these groups.

A Clinician's Guide to Neurodivergence Sarah Ashworth-Watts, Natalie Brotherton, Hannah Carton, 2025-09-22 A Clinician's Guide to Neurodivergence: Supporting a neuro-affirmative form of practice is a concise handbook which provides a comprehensive and accessible overview of a range of conditions to support clinicians working with individuals with diverse neurocognitive profiles. It provides a practical guide for clinicians to move towards a more neuro-aware and neuro-affirmative way of working. It sets out guidance around diagnosis and access to services whilst giving consideration to the adaptations and accommodations that might be necessary to avoid the inequities that can often be experienced through neuro-normative or heteronormative practices. Topics covered include learning difficulties such as Dyslexia and Dyscalculia, Autism, ADHD, acquired brain injury, and various other neurodivergent profiles. The intersection of neurodivergence with factors such as gender and age, and comorbidity with mental health and personality profiles, are also considered. Drawing on the NICE guidelines, the International Classification of Disease (ICD) system, and the Diagnostic Statistical Manual (DSM), each chapter provides the background to different neuro-cognitive profiles, common indicators that may be observed, screening and

diagnostic assessment clinical recommendations and signposting to relevant resources and services It is valuable reading for students researchers clinicians therapists medical and allied professionals who require an introductory text providing in depth details regarding a range of neurodivergent conditions

The Teacher's Guide to SEN Natalie Packer, 2017-03-03

In The Teacher's Guide to SEN Natalie Packer outlines what all teachers need to know about SEN and provides a range of practical tips and ideas that can be applied in the classroom One of the key messages of the Special Educational Needs and Disability Code of Practice first introduced in 2014 is that every teacher is responsible and accountable for every pupil in their class including those with SEN So what does this mean in practice for you as a class or subject teacher Essentially it requires you to understand every individual's needs have a range of relevant knowledge and skills and have the confidence to try out some new approaches This book is your essential guide to meeting these requirements The Teacher's Guide to SEN details the areas of need teachers are most likely to encounter including speech language and communication needs SLCN autism or ASD moderate learning difficulties MLD specific learning difficulties SpLD including dyslexia dyspraxia and dyscalculia social emotional and mental health needs and physical needs including visual impairment VI hearing impairment HI and physical disability It also provides a useful overview of the many potentially unfamiliar acronyms used in SEN Special educational needs and disability SEND is an umbrella term which covers a varied array of different needs They may impact upon learning and cognition behaviour social interactions or an individual's ability to access the curriculum and certain activities in the same way as their peers With the appropriate support these needs need not be a barrier to learning as this book demonstrates The Teacher's Guide to SEN offers practical hands on strategies to ensure high quality teaching for all together with key facts real life case studies and questions for reflection The comprehensive advice includes defining special educational needs understanding your responsibilities identifying pupils with SEN and putting support in place as part of the graduated approach contributing to SEN reviews and education health and care plans EHC plans making reasonable adjustments in the classroom delivering inclusive high quality teaching for all raising expectations classroom strategies focused on feedback planning questioning modelling and scaffolding learning developing relationships with pupils and their families effective partnership working with teaching assistants parents and outside agencies and tracking and reviewing progress and provision Relevant to all primary and secondary practitioners this is an essential point of reference for busy teachers including trainees NQTs or indeed any practitioner who would like to refresh their knowledge or gather some new ideas to try in the classroom
