Handbook of Special Education Research, Volume I Thomas W. Farmer, Elizabeth Talbott, Kristen McMaster, David Lee, Terese C. Aceves, 2022-05-10 Divided into two volumes, Handbook of Special Education Research provides a comprehensive overview of critical issues in special education research. This first volume addresses key topics in theory, methods, and development, exploring how these three domains interconnect to build effective special education research. Each chapter features considerations for future research and implications for fostering continuous improvement and innovation. Essential reading for researchers and students of special education, this handbook brings together diverse and complementary perspectives to help move the field forward.

Power in Numbers Talithia Williams, 2018-04-10 From rocket scientists to code breakers, fascinating stories of women who overcame obstacles, shattered stereotypes, and pursued their passion for math. Notices of the American Mathematical Society. With more than 200 photos and original interviews with several of the amazing women covered, Power in Numbers: The Rebel Women of Mathematics is a full-color volume that puts a spotlight on the influence of women on the development of mathematics over the last two millennia. Each biography reveals the life of a different female mathematician from her childhood and early influences to the challenges she faced and the great achievements she made in spite of them. Learn how: After her father terminated her math lessons, Sofia Kovalevskaya snuck algebra books into her bed to read at night. Emmy Noether became an invaluable resource to Albert Einstein while she was in the Navy. Native American rocket scientist Mary Golda Ross developed designs for fighter jets and missiles in a top secret unit. Katherine Johnson's life or death.
