Understanding Creative Users of ICTs David Kurt Herold, Harmeet Sawhney, Leopoldina Fortunati, 2013-09-13 The disjuncture between the design intent of the developers of ICTs and the needs of the users has often led to surprising use of new technologies as users have refused to become mere agents of the designers Individual users have adopted their own uses of ICTs based on the complex webs of relations and meanings in which they function as social actors Instead of adjusting these webs to new ICTs they have fit the ICTs into their pre existing social webs often resulting in imaginative and creative uses of new technologies not envisaged by the original designers The contributions in this volume provide studies of such integrations of ICTs into the lives of human users and demonstrate that such uses should not be regarded as faulty or mistaken merely because they fail to meet the expectations of the original designers of the ICTs Instead human users should be given precedence over ICTs and the creative uses of universal technologies by individual users should be emphasised and studied so as to move towards a better understanding and appreciation of the integration of ICTs into human lives This book was originally published as special issue of The Information Society **Northern Eden** ,1999 **An Exegetical Summary**

of John 1-9 Ronald Trail, 2025-04-04 Each volume in the Exegetical Summaries series works through the original text phrase by phrase English equivalents are provided for all Hebrew and Greek words making this an excellent reference for exegetes of all levels Questions that occur to exegetes as they study the text are stated and then answered by summarizing the ways many scholars have interpreted the text This information should help translators or students in making their own exegetical decisions As a basis for discussion a semi literal translation of the text is given The first question to be answered is the meaning of key words in context Information from standard lexicons is given and then translations of the word are cited from a dozen major Bible versions and from commentaries that offer their own translations of the text Questions about the grammar and discourse structure of the original languages are answered by summarizing the views of many commentators When exegetical disagreements appear in the commentaries and versions the various interpretations are listed This book is not intended to replace the commentaries that are consulted Rather than being a stand alone commentary this book summarizes many important details of exegesis that should be considered in studying the biblical text Lessons from Privatization Rolph van der Hoeven, György Sziráczi, 1997 This book assesses the labor market consequences of privatization in developing countries the Republic of Korea India and Mexico and transition economies Bulgaria the Czech Republic Eastern Germany and Hungary during the first half of the 1990s Based on over 20 case studies in seven countries it considers the effect of privatization on productivity and on the level and structure of employment The evolving patterns of industrial relations in privatized firms and the subsequent changes in wages remuneration systems and non wage benefits are also examined Touching the Future Technology for Autism? Joseph Mintz, Miklos Gyori, Morten Aagaard, 2012 International interest in the use of assistive and ambient information and communication technologies to support people with a range of cognitive impairments is growing rapidly Autism spectrum disorders ASDs which affect social skills communicative abilities and behavior are of particular interest The number of diagnosed cases has continued to grow in recent decades and the impairments associated with ASDs mean individuals affected are at risk of social isolation and marginalization Although helping people with autism to overcome their difficulties has always required the joint expertise of various fields the widely shared *The 2010 Census Communication Contract* United States. Congress. House. Committee on Oversight and Government Reform. Subcommittee on Information Policy, Census, and National Archives, 2010 Today's hearing as the title indicates will examine the 2010 Census Integrated Communications Campaign in hard to count areas The hearing will assess and examine ethnic print and broadcast media's role in preventing an undercount We will further examine avenues to aid the Census Bureau in its efforts to reach those who are more likely to be undercounted children minorities and renters P 1 ATD's Action Guide to Talent Development Elaine Biech, 2018-09-28 Get Started Now Take Action Staying ahead of change in the world your organization and your profession requires action You learned a lot to launch your organization's talent development effort As you position it for the future what you need to know grows
