A Manager's Guide to Human Behavior, Fifth Edition Matthew Reis, Judith B. Geller, 2010 Understanding how and why employees behave as they do is a critical skill for managers in every organization. Managers are responsible for ensuring that the organization's mission and strategic goals are enacted so it is of the utmost importance they know how to motivate and engage employees. This updated and revised edition of *A Manager's Guide to Human Behavior* will prepare managers to better understand, motivate, and focus the energies of individual employees and the collective energy of their work teams. Building on the content in the fourth edition, this updated course reexamines key theories and focuses on their practical application to typical management situations. New topics in this edition include learning organizations and open systems as a context for understanding how individuals contribute to organizational effectiveness, self-awareness, Goleman's emotional intelligence, and Bridge's transitions model of change. The performance management section has been enhanced with a simplified process model: define, develop, review, and reward. The section on leadership examines the concept of the versatile leader who engages the spirit, head, heart, and hands of employees. Throughout the course, self-assessments, worksheets, checklists, and questionnaires give students the opportunity to apply what they are learning. Each chapter incorporates an action plan tied to the objectives and competencies for the topic area. Short case studies enable students to apply their new knowledge to analyze, understand, and influence human behavior.

Communication Ethics, Media & Popular Culture Phyllis M. Japp, Mark Meister, Debra K. Japp, 2005 Popular culture provides a daily catalog of cultural attitudes, values, and practices. From television sitcoms to the daily news, from the theater to the sports stadium, we observe embodiments and enactments of character, virtue, honesty, and integrity, or lack thereof. In situations we find understandable if not familiar. The essays in this volume address popular mediated constructions of ethical and unethical communication in news, sports, advertising, film, television, and the internet. Emphasis is on the consumption of popular culture messages as well as how audiences make moral sense out of what they read, hear, and observe.

Human Communication Stewart L. Tubbs, Sylvia Moss, 2003 Intended for the introductory communication concepts course versus the performance-oriented hybrid course, *Human Communication: Principles and Contexts* focuses on the principles of speech communication and its contexts. The award-winning authors, an academic and a professional writer, write engagingly, strive to link theory and research with fundamental concepts, and to enliven the exposition with intriguing case studies, useful interpersonal skills, and stimulating examples. Tubbs and Moss show a true understanding and sensitivity to diversity, a reflection of their professional interests in gender and cultural issues. Stewart Tubbs is the Darrell S. Cooper Professor of Leadership in the School of Business at Eastern Michigan University. Sylvia Moss received the Whiting-Wright Award for her poetry and has twice been a Yaddo Fellow.
