Achievement and Retention of Secondary School Students in Computer Studies Dr. Anusiuba Overcomer Ifeanyi Alex,Dr.
Ashoka S. B.,Paul, Roseline Uzoamaka,2022-12-21 The study was led by six research questions and six hypotheses were
examined at a significance level of 0.05 The quasi experimental design was used notably the non equivalent control group
design for the pretest and posttest 4873 senior secondary school students in the Nnewi Education Zone of the state of
Anambra make up the study's population In the study 273 percent of the population was used A sample of 133 Nnewi
Education Zone SS2 computer science students was used The Computer Studies Department and one knowledgeable
computer studies teacher from Nnewi Kudder Richardson Formula 20 was used to determine the instrument's reliability The
CSAT was used as a pretest and posttest to gather data Three weeks following the post test the retention test was given The
results demonstrated that a lesson followed by animated media education greatly improved students computer science
performance When compared to the traditional approach only tutorials considerably increased students retention however
this improvement was not significant when compared to animated media The study concluded that tutorials are successful at
raising students achievement and retention The use of animated material in the classroom has been shown to improve
