Drug Control and International Law Daniel Wisheart,2018-10-08 This book provides for an extensive legal analysis of the international drug control system in light of the growing challenges and criticism that this system faces In the current debate on global drug policy the central pillars of the international drug control system the UN Drug Conventions as well as its institutions are portrayed as outdated suppressive and seen as an obstacle to necessary changes The book s objective is to provide an in depth and positivist insight into drug control s present legal framework and thus provide for a better understanding of the normative assumptions upon which drug control is currently based This is attained by clarifying the objectives of the international drug control system and the premises by which these objectives are to be achieved The objective of the current global framework of international drug control is the limitation of drugs to medical and scientific purposes The meaning of this objective and its concrete implications for States parties as well as its problems from the perspective of other regimes of international law most notably international human rights law are extensively analysed Additionally the book focuses on how the international drug control system attempts to reach the objective of confining drugs to medical and scientific purposes i e by setting up a universal system that exercises a rigid control on drug supply The consequences of this heavy focus on the reduction of drug supply are outlined and the book concludes by making suggestions on how the international drug control system could be reformed in the near future in order to better meet the existing challenges The analysis occurs from a general international law perspective It aims to map the international drug control system within a wider context of international law and to understand whether the problems that the international drug control system faces are exemplary for the difficulties that institutionalized systems of global scope face in the twenty first century

The UN Convention on the Rights of Persons with Disabilities in Practice Lisa Waddington,Anna Lawson,2018-05-24 Introduced in 2008 the UN Convention on the Rights of Persons with Disabilities has existed for nearly a decade This comprehensive study examines

how courts in thirteen different jurisdictions make use of the Convention The first sustained comparative international law analysis of the CRPD Waddington and Lawsons ground breaking text illuminates the intersection between human rights law disability law and international law through an examination of the role of courts The first part of the book contains chapters specific to each jurisdiction The second part consists of comparative chapters which draw on the rich analysis of the jurisdiction specific chapters These chapters reflect on emerging patterns of judicial usage and interpretation of the CRPD and on the wider implications for human rights theory and the nascent field of international comparative human rights law This volume is a vital and thought provoking addition to the literature on comparative international law and disability rights

Jurisdiction and Arbitration Agreements in Contracts for the Carriage of Goods by Sea Jonatan Echebarria

Fernández,2021-03-09 Jurisdiction and Arbitration Agreements in Contracts for the Carriage of Goods by Sea focuses on party autonomy and its limitations in relation to jurisdiction and arbitration clauses included in contracts for the carriage of goods by sea in case of any cargo dispute The author takes the perspective of the shipping companies and the shipowners as these are the driving forces of the shipping industry due to their strategic importance The book provides an analysis of the existing law on the recognition and validity of jurisdiction and arbitration clauses in the contracts for the carriage of goods by sea The author also seeks to provide conclusions and to learn lessons for the future of the non recognition and the non enforcement of the clauses in the existing fragmented legal framework at an international European Union and national level England Wales and Spain The interface between the different legal regimes reveals the lack of international harmonisation and the existence of forum shopping when a cargo interest sues the shipowner or the party to whom the shipowner charters the vessel This concise book provides a useful overview of existing research for students scholars and shipping lawyers
