Kraftwerk Electronique Pop:

Kraftwerk: I Was a Robot Wolfgang Flür, 2017-05-15 Wolfgang Flür was vital cog in the Kraftwerk machine galvanising the group's electric drum sound throughout the 1970s and propelling the rhythmic backbone of iconic albums such as *Autobahn* and *Electric Café*. *I Was a Robot* is a detailed evocative account written in Flür's no nonsense style. It takes us from his youth into the band's formation and touring of their influential works laying bare the acrimonious break up and court cases that later followed. This book is the final word on Kraftwerk, their continued influence and what it felt like to be a Man Machine. This is a first hand account of human life inside the robot factory. A world that I could barely have imagined as a 16 year old Kraftwerk fan stranded in a suburb on the wrong side of the river from Liverpool. A window into a world that I could never have imagined. Andy McCluskey OMD. Kraftwerk is a myth. Wolfgang is for real. Thus handsome elder statesman of Electronic Music gives a lot of useful inside information about the Men Machines. Recent years have witnessed a true technological revolution with a global impact upon all areas of society from entertainment to education. Technology changing and evolving at increasing speed undoubtedly shapes ways of seeing the world something which requires profound reflection in terms of how reality is understood. It is undeniable that in this audiovisual world music plays a leading and prominent role. This is particularly notable when considering the importance of music in relation to the way it is featured on mobile devices and as manifested in terms of other communication technologies its impact on new narrative forms and the prominence of audiovisual fiction in advertising and the new ways of creating receiving and disseminating music on the Internet. This book is divided into two sections New Media New Audiences and Music Cinema and Audiovisual Practices New Approaches and the sixteen essays brought together here are the work of an international group of scholars who deal with different geographical and cultural contexts. One of the highlights of this volume is its interdisciplinary re-reading of a complex phenomenon that is undoubtedly a fundamental part of contemporary culture. As such this collection will be of particular interest to both scholars and non specialist readers **The Producer as**

Composer Virgil Moorefield, 2010-02-26 The evolution of the record producer from organizer to auteur from Phil Spector and George Martin to the rise of hip hop and remixing. In the 1960s rock and pop music recording questioned the convention that recordings should recreate the illusion of a concert hall setting. The Wall of Sound that Phil Spector built behind various artists and the intricate eclecticism of George Martin's recordings of the Beatles did not resemble live performances in the Albert Hall or elsewhere but instead created a new sonic world. The role of the record producer writes Virgil Moorefield in *The Producer as Composer* was evolving from that of organizer to auteur. Band members became actors in what Frank Zappa called a movie for your ears. In rock and pop in the absence of a notated score the recorded version of a song created by the

producer in collaboration with the musicians became the definitive version Moorefield a musician and producer himself traces this evolution with detailed discussions of works by producers and producer musicians including Spector and Martin Brian Eno Bill Laswell Trent Reznor Quincy Jones and the Chemical Brothers Underlying the transformation Moorefield writes is technological development new techniques tape editing overdubbing compression and in the last ten years inexpensive digital recording equipment that allows artists to become their own producers What began when rock and pop producers reinvented themselves in the 1960s has continued Moorefield describes the importance of disco hip hop remixing and other forms of electronic music production in shaping the sound of contemporary pop He discusses the making of Pet Sounds and the production of tracks by Public Enemy with equal discernment drawing on his own years of studio experience Much has been written about rock and pop in the last 35 years but hardly any of it deals with what is actually heard in a given pop song The Producer as Composer tries to unravel the mystery of good pop why does it sound the way it does
