 Strategic Management Accounting in a Network Economy Wingsun Li,2023-08-26 This book continues from author s first
 SMA publication in 2018 also by Springer and discusses the new roles of SMA in the new network economy Emerging digital
 technologies have revolutionized the business world with groundbreaking rules and innovative business models New
 knowledge and information technologies have inspired new business ideas and created more information platforms at a lower
 cost yet highly efficient in the market The new business transformation also encourages more inter organizational
 cooperation to cope with rapid changes All these novelties add challenges to corporate individuals in managing businesses
 beyond their organizations in particular financial professionals e g CFO who are experts in the team Therefore SMA is
 assigned a new role in the new network economy Similarly SMA calls for major updates and revisions This urges author to
 write this book to meet the new demand The author has selected important topics that are particularly pertinent to the new
 Internet economy These topics include how to make decisions under business uncertainty how to value businesses in general
 Internet stocks and intangible assets in particular Business collaboration and integration are usual means to acquire synergy
 value How does SMA help deliver the best results How are business models and information platforms built as sense making
 revenue models even though these platforms never charge for services How is market power and brand value measured How
 does trust supplement control in new network organizations Finally how is value created captured and allocated in a fair

manner The book goes through detailed examinations of each topic with cases examples and illustrations as required
