to trace three discourses set in motion by the colonial encounter the evolving understanding of s sana as an orienting framework for change the adaptive modes of identity made possible in the moral community and the ongoing definition of religion as a site of conflict and negotiation of autonomy Beginning from an understanding that defining and redefining the boundaries of religion operated as a key technique of colonial power shaping subjects through European categories and authorizing projects of colonial governmentality she explores how Burmese Buddhists became actively engaged in defining and inflecting religion to shape their colonial situation and forward their own local projects Saving Buddhism intervenes not just in scholarly conversations about religion and colonialism but in theoretical work in religious studies on the categories of religion and secular It contributes to ongoing studies of colonialism nation and identity in Southeast Asian studies by working to denaturalize nationalist histories It also engages conversations on millennialism and the construction of identity in

Buddhist studies by tracing the fluid nature of s sana as a discourse The layers of Buddhist history that emerge challenge us to see multiple modes of identity in colonial modernity and offer insights into the instabilities of categories we too often take for granted
