This book contains everything you need to know to get started as an online tutor It covers the essentials of tutoring choosing
your tech and software managing homework and getting set up alongside detailed guidance focusing on each level of tuition
With techniques developed through research and first hand experience the author explains exactly how to turn existing
subject knowledge into effective tutoring for students of all ages in a variety of subjects Divided into two parts the first
answers the logistical questions facing every new tutor such as what equipment do I need Where can I apply How much
should I charge The second half focuses on how to tutor different age groups effectively and subject specific areas including
English Maths and Science as well as the author s tried and tested 5 step process for choosing a subject assessing a student
and planning their first lessons There is also information on how to support students writing personal statements and
applying to university as well as teaching English as a Second Language Alongside tailored up to date information on
available software hardware exam specifications and the online tutoring marketplace the book contains a 10 week timetable
of adaptable lesson plans so new tutors can get started immediately Finally there are two additional downloadable chapters
which expand on less common subjects and another which includes a digital download of every resource from the book With
suggestions for resources homework and timings to support you at every stage this is an essential read for anyone wanting to
