Agricultural Development and Food Security in Africa Renu Modi,Fantu Cheru,2013-08-08 The subject of food security and land issues in Africa has become one of increased importance and contention over recent years In particular the focus has shifted to the role new global South donors especially India China and Brazil are playing in shaping African agriculture through their increased involvement and investment in the continent Approaching the topic through the framework of South South co operation this highly original volume presents a critical analysis of the ways in which Chinese Indian and Brazilian engagements in African agriculture are structured and implemented Do these investments have the potential to create new opportunities to improve local living standards transfer new technology and knowhow to African producers and reverse the persistent productivity decline in African agriculture Or will they simply aggravate the problem of food insecurity by accelerating the process of land alienation and displacement of local people from their land Topical and comprehensive Agricultural Development and Food Security in Africa offers fresh insight into a set of relationships that will shape both Africa and the world over the coming decades Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome,Michael Twum-Darko,Cyril Ogbokor,Nyaniso Mfusi Zonke,T. Sethibe,R. Steyn,Esme Mohammed,Renier Steyn,L.B. Nguenang,Mamorena Lucia Matsoso,Henry N. Ozuru,Julius Akaba,Patience Rambe,Edem Korku Agbobli,Henri-Vincent Ndjave-Ndjoy,Regis Muchemwa,Andre de la Harpe,Konosoang Mpiti,Ayodeji Afolayan,2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates

Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted. Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data. On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data. However there were some academic papers which used mixed methodology because of the nature of the study. Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology.

Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique. Mostly there is no general argument leading from one contribution to the next. However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth.

With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic. Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors. Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation.

With regard to technology and big data impact on organisational performance it was evident that system performance, memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance. Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness.

Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics, information management, business education, development studies, social sciences and technology. It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment.

Parliamentary Papers Queensland. Parliament. Legislative Assembly, 1971

10 Previous Years CLAT & AILET (2013 - 2022) Topic-wise Solved Papers 6th Edition | Common Law Admission Test PYQs | Must for SLAT, LLB 2023 Law Exams, The 6th Edition of the book 10 Previous Years CLAT AILET 2013 22 Topic wise Solved Papers consists of Topic wise questions from the past 10 years 2013 2022 question papers divided into 5 sections English Including Comprehension Elementary Mathematics Logical Reasoning General Knowledge Legal Aptitude.
