4.3.2 : After replacing the battery or in case of irregular display information, reset the computer by first pressing simultaneously on A and B, and while holding them down, push on shifter button C or D. All function settings will then be cleared. They will then have to be reset.

4.3 The displays

5 displays are available : 3 monitor current data, 2 display calculated one. You can switch from one display to the other by pressing button A or B.

Energy saving

The display turns off automatically about 5 minutes after the latest stimulus received (signal coming from the speed sensor or shifter button A, B, C, D, or the brake lever shifter button).
