Make Video Calls

You can easily make video calls to contacts in your Contact List, but you must have a webcam. You can receive and participate in a video call without a webcam. In this case, you see the caller's video stream, but no video is transmitted from your Office Communicator client.

Make a video call

- In the Contact List, right-click the contact that you want to call, and then click **Start a Video Call**.

Invite someone to call

- In the Conversation window, click **Invite**, and then select a contact or enter a number to call in the **Type a name or number** box.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
