Forensics and Biotechnology, 2004 Features 10 investigations that use biotechnology techniques to solve real world problems Lab activities emphasize the use of scientific inquiry as a way of thinking and problem solving while relating scientific processes to technological and societal issues *The Hongse Spider* George H. Stollwerck, 2006-02-08 The year is 2005 The worlds worst modern catastrophe is visiting itself on China Avian Flu H5N1 is estimated by the Center for Disease Control CDC to kill up to 150 million people worldwide The deadly virus has only to complete its leap from fowl to human cross contamination China has already killed millions of domestic chickens ducks and geese But the slaughter was a double edged sword They have killed the poultry earmarked to keep Chinas citizens from starvation during the 2005 2006 winter which has been forecasted to one of the most ferocious in five decades China also is convinced that the United States new ballistic missile defense program is targeted at neutralizing her minuscule nuclear deterrent relegating her to lifetime servitude to the Americans the worlds last remaining superpower Beijing party leaders vow that will never happen The Peoples Republic of China must become a modern superpower Only then will she be able to demand the outright monetary grants she needs to survive Modernization of her army will cost 100 billion US dollars Beijing knows that sum resides in the coffers of Hong Kong Thus Operation Hongse Spider is born *The Choices I've Made* J.L. Berg, 2017-10-01 High school sweethearts reunite in this heartfelt second chance romance Twelve years ago he drove away with my heart in his hands I ve moved on since then Or so I thought Growing up in a small town there weren t many options when it came to friends But even in a sea of a million I d always choose Jake Jameson He made me feel safe safe with my secrets dreams and eventually my heart I believed we would have forever together That was a long time ago I thought I d forgotten those piercing blue eyes and the sound of his laugh I tried to obliterate the memory of his touch from my mind Yet one single glance as he stands at my door twelve years later and I m instantly transported back to a simpler time when love was effortless and my heart was whole The problem I m marrying his best friend **Homo Electrus** Rabih S. Ballout, 2012-09 About the Book *Homo Electrus* is a fantastic prediction of the next human generation These two words describing the evolution of modern man and how it all began will be remembered for all posterity An epic scientific discovery allows artificial knowledge and memory to be integrated into the human brain Additional new findings create a worldwide race for supremacy pitting nations and individuals against each other in a quest for economic cultural and military dominance The world will change forever in a bid to outsmart and outmaneuver fellow man What starts as one scientist s noble search for a cure for neurological and muscular diseases ends up being used in unintended ways and with wicked intentions The added knowledge and resources afforded by this discovery become a dangerous weapon in the hands of select individuals who make arrogance and self righteousness commonplace as they launch grand designs to settle old grievances while trying to control the resources of our planet Unfortunately the added knowledge does not come with added wisdom wisdom will have to wait A few however do benefit

from the discoveries Among them are wise individuals who begin to see the past clearly and objectively They find flaws in classical and individual histories that were passed down for generations and by teaching others about the future shine a desperately needed ray of hope on humanity

Evelyn and her family have had a hellish year so they plan to seclude themselves on an island in northwest Washington for a few months. However, they soon realize the island is not as quiet and peaceful as they had hoped. Strange dreams and scary events lead Evelyn to research the island's history. With the help of her new friend Meg and the local Sheriff, she discovers the island has a gruesome history and more than enough reason to be haunted. While the colorful residents of the island's past may make for a good book, Evelyn and her family aren't sure they want to vacation in the same house a serial killer once called home. The question of what happened to his wife keeps Evelyn hooked while they wrestle with the idea that ghosts really do exist. But the spirits are restless and new victims haven't arrived on the island for a long time. It isn't long before Evelyn and her family are forced to fight for their lives. How do you protect yourself from someone who is already dead? With everything you have.
