Inventing Academic Freedom Peter C. Kent, 2012-09-24 In 1968 there was political ferment everywhere In Paris students were in the streets In the U.S. civil rights the Vietnam War and protests against the draft brought out millions In this atmosphere a young Jewish American professor in the quiet town of Fredericton New Brunswick sparked a controversy that established the principles of academic freedom on Canadian campuses Norman Strax was an unlikely figure in a conservative town with a sleepy university campus He didn't

dress like other faculty members he drove a funny car and he didn't socialize much with his colleagues The university president Colin Mackay was a young scion of the local establishment who ran the university as if it belonged to him With his links to Lord Beaverbrook the Irvings and the provincial government he was confident of support for his paternalistic way of doing things When Strax and some students protested a new library regulation Colin Mackay abruptly suspended Strax from his teaching position A sit in followed and the university dragged Strax into court Before long the provincial government and the judiciary were involved So were university professors across Canada In the end the Strax Affair was the catalyst for a new approach to governance at Canadian universities and was key to establishing the principles of academic freedom
