Turfloop a Conscious Pariah Chris Kanyane Kanyane, 2010-01-06 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juicy and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book

Changing South Africa Sam C. Nolutshungu, 1982

The Road to Justice: The Bible and the law as cornerstones of civilisation and culture Eltjo JH Schrage, Jan Adriaan van der Walt, Glynis van der Walt, Hashali Hamukuaya, 2023-10-24 The relationship between art Christian culture and the law often receives attention It is trite that law influences all human lives as well as culture and art The law however does not only provide a context within which art and culture can develop but it is also the cornerstone of civilisation and culture On the other hand we must contemplate whether civilisation and culture are necessary conditions for a legal system This book consists of a compilation of essays narrating the influence of principles from the Bible on which the Christian belief is premised and practised by Christians worldwide on law and on culture Consideration is given to the foundation of the law on different and well known Biblical texts The interplay between Christian principles vis vis the law and culture is considered and unpacked in this research In addition copies of well known art depicting scenes from the Bible enhance each chapter The main author the late Prof Eltjo Schrage passed away shortly before the book was published with the assistance of Prof Jan Adriaan van der Walt Dr Glynis van der Walt and Dr Hashali Hamukuaya

Working with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebeso, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a

wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeless and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

Education, Race, and Social Change in South Africa John A. Marcum, 2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa's leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

Black Political Thought in the Making of South

African Democracy C.R.D. Halisi, 1999 a comprehensive analytical survey of the multidimensional evolution of black political thought in South Africa's politicization process. Choice Many citizens experience a sense of reluctance to share a single national identity with all of those who are defined by law to be their compatriots. This problem can be explained and surmounted but it cannot be evaded by those who aspire to build a stable democracy in South Africa. Richard L Sklar from the Foreword. What will it mean to be a citizen in the new South Africa. This penetrating study analyzes the issues of dual citizenship, black consciousness, populism, racial proletarianization and their interaction with various political ideologies. Halisi's analysis has practical implications for the development of political identity in the new South Africa. *Parcel of Death* Gaongalelwe Tiro, 2019-08-01. *Parcel of Death* recounts the little told life story of Onkgopotse Abram Tiro, the first South African freedom fighter, the apartheid regime pursued beyond the country's borders to assassinate with a parcel bomb. On 29 April 1972, Tiro made one of the most consequential revolutionary addresses in South African history. Dubbed the Turfloop Testimony, Tiro's anti-apartheid speech saw him and many of his fellow student activists expelled, igniting a series of strikes in tertiary institutions across the country. By the time he went into exile in Botswana, Tiro was president of the Southern African Student Movement (SASM), permanent organiser of the South African Student Organisation (SASO) and a leading Black Consciousness proponent, hailed by many as the godfather of the June 1976 uprisings. *Parcel of Death* uses extensive and exclusive interviews to highlight significant influences and periods in Tiro's life, including the lessons learned from his rural upbringing in Dinokana, Zeerust; the time he spent working on a manganese mine; his role as a teacher; and the impact of his faith in shaping his outlook. It is a compelling portrait of Tiro's story and its lasting significance in South Africa's history.

Students Must Rise Ann Heffernan, Noor Niefthagodien, Sifiso Mxolisi Ndlovu, Bhekizizwe Peterson, 2016-06-01. A detailed account of the incredibly influential Soweto Student Uprising of 1976. The Soweto Student Uprising of 1976 was a decisive moment in the struggle against apartheid. It marked the expansion of political activism to a new generation of young activists, but beyond that, it inscribed the role that young people of subsequent generations could play in their country's future. Since that momentous time, students have held a special place in the collective imaginary of South African history. Drawing on research and writing by leading scholars and prominent activists, *Students Must Rise* takes Soweto '76 as its pivot point but looks at student and youth activism in South Africa more broadly by considering what happened before and beyond the Soweto moment. Early chapters assess the impact of the anti-pass campaigns of the 1950s, of political ideologies like black consciousness as well as of religion and culture in fostering political consciousness and organisation among youth and students in townships and rural areas. Later chapters explore the wide-reaching impact of June 16th itself for student organisation over the next two decades across the country. Two final chapters consider contemporary student-based political movements, including Rhodes Must Fall and Fees Must Fall, and historically root these in the long and rich tradition of student activism in South Africa. 2016 marks the 40th anniversary of the 1976 June 16th uprisings. This book rethinks the

conventional narrative of youth and student activism in South Africa by placing that most famous of moments the 1976 students uprising in Soweto in a deeper historical and geographic context *Intellectual History in Contemporary South Africa* M. Eze, 2016-04-30 In examining the intellectual history in contemporary South Africa Eze engages with the emergence of ubuntu as one discourse that has become a mirror and aftermath of South Africa's overall historical narrative This book interrogates a triple socio political representation of ubuntu as a displacement narrative for South Africa's colonial consciousness as offering a new national imaginary through its inclusive consciousness in which different competing and often antagonistic memories and histories are accommodated and as offering a historicity in which the past is transformed as a symbol of hope for the present and the future This book offers a model for African intellectual history indignant to polemics but constitutive of creative historicism and healthy humanism **Cultivating Seeds of Hope** Murray Coetzee, Retief

Møller, L. D. Hansen, 2015-05-01 This publication is a collection of 40 oral testimonies about Beyers Naud but also about the apartheid era in general and about the role that Christianity played in that period In addition to an abundance of insights on Beyers Naud by those who knew him best it offers perspectives on the movements and entities that Naud associated himself with for example the Christian Institute the South African Council of Churches and the people involved in both Stories unfold of faith and suffering as well as betrayal all against the background of an overtly racist apartheid state and by implication against a capitalist system with class divisions that degraded human beings and denied their human dignity **Advanced**
