The New Elvis Wyborn Senna, 2015-03-11 On the night of August 19 1974 Elvis decides that he d like to leave a little something of himself behind when it s his time to go He visits a fertility doctor and soon his son is born Years later the baby has inevitably matured into a young man who now grapples with the secrecy surrounding his paternity Elvis has long left the building and it may take a certain special friend to help his son discover the truth behind his extraordinary lineage Fraught with tension poignancy and raw emotion The New Elvis examines the lives of two disparate friends one born into a life of privilege and the other despair and ultimately unites them through truth healing and love Crisis, Resilience and Survival

Matthias Holweg, Nick Oliver, 2015-12-01 Crisis Resilience and Survival charts the evolution of the global automotive industry revealing the pressures and challenges facing firms in this huge but turbulent realm of business Long term overcapacity and swings of the economic cycle mean that many car companies are in financially perilous positions Yet failures of auto companies are rare and many have bounced back from the brink Using the concept of the survival envelope Holweg and Oliver argue that the ability to design develop manufacture and distribute vehicles competitively is not the only factor in ensuring success Using detailed analyses of two failures Rover and Saab and two near misses Chrysler and Nissan they explore how scale market reach and supportive stakeholder relations can make the difference between success and failure in this global industry This book will appeal to anyone working in or studying the auto industry as well as those interested in corporate success and failure
