Romberg, 1992-01-01 Are current testing practices consistent with the goals of the reform movement in school mathematics If not what are the alternatives How can authentic performance in mathematics be assessed These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools This book provides recent views on the issues surrounding mathematics tests such as the need for valid performance data the implications of the Curriculum and Evaluation Standards for School Mathematics for test development the identification of valid items and tests in terms of the Standards the procedures now being used to construct a sample of state assessment tests gender differences in test taking and methods of reporting student achievement Math Thinking Mats, Grade 1 Carson-Dellosa Publishing, 2016-03-07 Math Thinking Mats for grade 1 reinforces standards based math skills and improves higher level thinking skills This hands on resource appeals to students by providing grade appropriate activities that range from adding robotic gears to comparing numbers on a carnival ride Teach standards based math skills using a format that engages students With 80 pages of high interest math activities the Ready to Go Math Thinking Mats series challenges students with grade specific math practice Made from durable card stock and featuring perforated pages these color coded activities are easy to organize making them ideal for learning stations and centers This resource can also be used to engage early finishers develop independent learning skills and support cooperative learning Perfect for reinforcing essential math skills the Ready to Go Math Thinking Mats series provides a convenient way to meet your students academic needs With customizable open ended practice activities you can adjust these hands on learning activities for independent or small group learning Complete with a write on wipe away surface the game mats are designed to make teaching and learning standards based math a fun and successful experience *Resources in Education*, 2001-10 **From GCSEs to EBCs** Great Britain. Parliament. House of Commons. Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that

changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals *Delivering Intensive, Individualized Interventions to Children and Youth with Learning and Behavioral Disabilities* Melody Tankersley, Bryan G.
