Testing and Assessment Great Britain. Parliament. House of Commons. Children, Schools and Families Committee, 2008 Testing and Assessment Third report of session 2007 08 Vol 2 Oral and written Evidence **Cyclescapes of the Unequal City** John G. Stehlin, 2019-10-01 A critical look at the political economy of urban bicycle infrastructure in the United States Not long ago bicycling in the city was considered a radical statement or a last resort and few cyclists braved the inhospitable streets of most American cities Today however the urban cyclist represents progress and the urban renaissance City leaders now undertake ambitious new bicycle infrastructure plans and bike share schemes to promote the environmental social and economic health of the city and its residents Cyclescapes of the Unequal City contextualizes and critically examines this new wave of bicycling in American cities exploring how bicycle infrastructure planning has become a key symbol of and site of conflict over uneven urban development John G Stehlin traces bicycling s rise in popularity as a key policy solution for American cities facing the environmental economic and social contradictions of the previous century of sprawl Using in depth case studies from San Francisco Philadelphia and Detroit he argues that the mission of bicycle advocacy has converged with and reshaped the urban growth machine around a model of livable environmentally friendly and innovation based urban capitalism While advocates envision a more sustainable city for all the deployment of bicycle infrastructure within the framework of the neoliberal city in many ways intensifies divisions along lines of race class and space Cyclescapes of the Unequal City speaks to a growing interest in bicycling as an urban economic and environmental strategy its role in the politics of gentrification and efforts to build more diverse coalitions of bicycle advocates Grounding its analysis in both regional political economy and neighborhood based ethnography this book ultimately uses the bicycle as a lens to view major shifts in today s American city **A World More Concrete** N.D.B. Connolly, 2014-08-25 Many people characterize urban renewal projects and the power of eminent domain as two of the most widely despised and often racist tools for reshaping American cities in the postwar period In A World More Concrete N D B Connolly uses the history of South Florida to unearth an older and far more complex story Connolly captures nearly eighty years of political and land transactions to reveal how real estate and redevelopment created and preserved metropolitan growth and racial peace under white supremacy Using a materialist approach he offers a long view of capitalism and the color line following much of the money that made land taking and Jim Crow segregation profitable and preferred approaches to governing cities throughout the twentieth century A World More Concrete argues that black and white landlords entrepreneurs and even liberal community leaders used tenements and repeated land dispossession to take advantage of the poor and generate remarkable wealth Through a political culture built on real estate South Florida s landlords and homeowners advanced property rights and white property rights especially at the expense of more inclusive visions of equality For black people and many of their white allies uses of eminent domain helped to harden class and color lines Yet for many reformers confiscating certain kinds

of real estate through eminent domain also promised to help improve housing conditions to undermine the neighborhood influence of powerful slumlords and to open new opportunities for suburban life for black Floridians Concerned more with winners and losers than with heroes and villains *A World More Concrete* offers a sober assessment of money and power in Jim Crow America It shows how negotiations between powerful real estate interests on both sides of the color line gave racial segregation a remarkable capacity to evolve revealing property owners power to reshape American cities in ways that can still be seen and felt today

Sustainable Peace in Northeast Asia Yong-Shik Lee, 2023-09-05 *Sustainable Peace in Northeast Asia* examines the causes of lasting and complex tensions in the region from underlying political historical military and economic perspectives discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the dynamics that their engagement has created Both South Korea and North Korea have sought reunification of the Korean peninsula which will have a substantial impact on the region The book examines its justification feasibility and effects for the region The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia A relatively small country in terms of its population Mongolia has rarely been examined in this context *Sustainable Peace in Northeast Asia* makes a fresh assessment of its potential role

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 *The Russian State and Russian Energy Companies* analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies' roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

The Political Dimension In Teacher Education Beverly Lindsay, Mark B. Ginsburg, 2013-10-23 First Published in 1995 This collection of papers was shaped by a variety of colleagues who attended the panel sessions on this topic organized at the annual meetings of the American Educational Studies

Association 1992 the Comparative and International Education Society 1993 and the American Educational Research Association 1994 The inspiration for this volume are the many policy makers teacher educators and teacher education students around the world who have struggled and continue to struggle about and in programs to prepare teachers formally Reading this volume will benefit the individual in that they will not only understand better the challenges they face but also be encouraged and empowered to pursue their political goals particularly those aimed at creating a world in which power and resources are distributed in a just and equitable manner

The River Paul Vasey, 2013-10-21 A vivacious memoir of life along the Detroit River from the prize winning reporter novelist and CBC broadcaster Paul Vasey *From GCSEs to EBCs* Great Britain. Parliament. House of Commons. Education Committee, 2013 The Government's plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals

Surviving a Japanese Internment Camp Rupert Wilkinson, 2013-12-04 During World War II the Japanese imprisoned more American civilians at Manila's Santo Tomas prison camp than anywhere else along with British and other nationalities Placing the camp's story in the wider history of the Pacific war this book tells how the camp went through a drastic change from good conditions in the early days to impending mass starvation before its dramatic rescue by U S Army flying columns Interned as a small boy with his mother and older sister the author shows the many ways in which the camp's internees handled imprisonment and their liberation afterwards Using a wealth of Santo Tomas memoirs and diaries plus interviews with other ex internees and veteran army liberators he reveals how children reinvented their own society while adults coped with crowded dormitories evaded sex restrictions smuggled in food and through a strong internee government dealt with their Japanese overlords The text explores the attitudes and behavior of Japanese officials ranging from sadistic cruelty to

humane cooperation and asks philosophical questions about atrocity and moral responsibility **American Book**
