**Visualisation and Epistemological Access to Mathematics Education in Southern Africa** Marc

Schäfer, 2023-04-27 This book demonstrates that using visualisation processes in mathematics education can help to enhance teaching and learning and bridge the inequality gap that exists between well resourced and under resourced schools in Southern Africa Drawing on classroom research conducted in the Southern African region it examines how epistemological access in a context of gross inequality can be constructively addressed by providing research based solutions and recommendations The book outlines the visualisation process as an integral but often overlooked process of mathematics teaching and learning It goes beyond the traditional understanding of visualisation processes such as picture forming and using tools and considers visualisation processes that are semiotic in nature and includes actions such as gestures in combination with language It adds value to the visualisation in mathematics education research discourse and deliberation in Africa With a unique focus on Southern Africa and open avenues for further research and collaboration in the region it will be a highly relevant reading for researchers academics and post graduate students of mathematics education comparative education and social justice education      Readers' Guide to Periodical Literature ,1916 Author and subject index to a selected list of periodicals not included in the Readers guide and to composite books      **Maths** ,2017 Student Wealth study guides are concise easy to understand and a pleasure to teach from We have filled the pages with easy to follow examples seasoned examination questions and detailed explanations on curriculum aligned topics They have been developed in line with the CAPS syllabus and were put together by a team of experienced and qualified individuals and reviewed externally before taking them to market This makes Student Wealth study guides a valuable resource in both teachers and students hands Student Wealth      **Grade Teacher** ,1970      **Research in Education** ,1970
