Talent Development in European Higher Education Dr. Marca V.C. Wolfensberger, 2015-02-10 This book examines the much debated question of how to unleash the potential of young people with promising intellectual abilities and motivation It looks at the increasingly important topic of excellence in education and the shift in focus towards the provision of programs to support talented students in higher education It provides a systematic overview of programs for talented students at northern European higher education institutions HEIs Starting in the Netherlands where nearly all HEIs have developed honors programs over the past two decades the book explores three clusters of countries the Benelux the

Nordic and the German speaking countries For each of these countries it discusses the local culture towards excellence the structure of the education system and the presence of honors programs In total the book reviews the special talent provisions for nearly four million students at 303 higher education institutions in eleven countries In addition it offers an analysis of the reasons to develop such programs a look into the future of honors education and a practical list of suggestions for further research The Sirius Program assigned Marca Wolfensberger to carry out this research *Research Approaches in Urban Agriculture and Community Contexts* Levon T. Esters, Amie Patchen, Isha DeCoito, Neil Knobloch, 2021-07-27 This book will fill a void in the literature around research and program design and the impact of such experiences on learning outcomes within urban agricultural contexts In particular this book will cover topics such as STEM integration science learning student engagement learning gardens and curriculum design *Ivan Pavlov* Daniel P. Todes, 2014-10-15 Winner of the Pfizer Award from the History of Science Society Contrary to legend Ivan Pavlov 1849 1936 never trained a dog to salivate to the sound of a bell So begins this definitive deeply researched biography of Ivan Pavlov Daniel P Todes fundamentally reinterprets the Russian physiologist s famous research on conditional reflexes and weaves his life values and science into the tumultuous century of Russian history particularly that of its intelligentsia from the reign of tsar Nicholas I to Stalin s time Ivan Pavlov was born to a family of priests in provincial Riazan before the serfs were emancipated and made his home and professional success in the booming capital of St Petersburg in late imperial Russia He suffered the cataclysmic destruction of his world during the Bolshevik seizure of power and civil war of 1917 21 rebuilt his life in his seventies as a prosperous dissident during the Leninist 1920s and flourished professionally as never before in the 1930s industrialization revolution and terror of Stalin times Using a wide variety of previously unavailable archival materials Todes tells a vivid story of that life and redefines Pavlov s legacy Pavlov was not in fact a behaviorist who believed that psychology should address only external behaviors rather he sought to explain the emotional and intellectual life of animals and humans the torments of our consciousness This iconic objectivist was actually a profoundly anthropomorphic thinker whose science was suffused with his own experiences values and subjective interpretations Todes s story of this powerful personality and extraordinary man is based upon interviews with surviving coworkers and family members along with never before analyzed taped interviews from the 1960s and 1970s examination of hundreds of scientific works by Pavlov and his coworkers and close analysis of materials from some twenty five archives The materials range from the records of his student years at Riazan Seminary to the transcripts of the Communist Party cells in his labs and from his scientific manuscripts and notebooks to his political speeches they include revealing love letters to his future wife and correspondence with hundreds of scholars artists and Communist Party leaders and memoirs by many coworkers his daughter his wife and his lover The product of more than twenty years of research this is the first scholarly biography of the physiologist to be published in any language **RRB**
