Quality in Undergraduate Education Monica McLean, Andrea Abbas, Paul Ashwin, 2017-12-28 Globally the appetite for higher education is great but what do students and societies gain Quality in Undergraduate Education foregrounds the importance of knowledge acquisition at university Many argue that university education is no longer a public good due to the costs incurred by students who are then motivated by the promise of lucrative employment rather than by studying a discipline for its own sake McLean Abbas and Ashwin however reveal a more complex picture and offer a way of thinking about good quality university education for all Drawing on a study which focused on four sociology related social science UK university departments of different reputation the book shows that students value sociological knowledge because it gives them a framework to think about and act on understanding how individuals and

society interact Further the authors discuss how what was learned from the study about how policy curriculum and pedagogy might preserve and strengthen the personal and social gains of social science undergraduate education **Space**

**Countermeasures and Medicine - Implementation into Earth medicine and Rehabilitation** Elena S.

Tomilovskaya,Nora Petersen,Jancy McPhee,Satoshi Iwase,Nandu Goswami,Steven Platts,2023-09-08 The effects of microgravity on the human organism have been studied for over 60 years The experience of short and long term space flights revealed alterations in multiple physiological systems either in the course of the flight or afterward Some of these changes represent serious risks for crew health and functional capacity This fact served as the trigger for multiple countries with space program participants to develop spaceflight countermeasures and medical support systems These activities are intended to counteract space flight effects such as axial and support unloading muscle disuse monotony fluid redistribution sensory deficit etc Some countermeasures have been adapted from Earth medicine and sports while others have been created especially for space flights Many of the observed space flight effects have similarities to conditions seen on Earth such as decrease of motor activity in aging people immobilized patients and professions associated with forced physical inactivity and isolation Thus many space countermeasures and medical support systems can be applied in Earth medicine and rehabilitation For example countermeasures like loading suits lower body negative pressure suits electromyostimulation of various regimens water salt supplements vestibular training means etc have been used in Earth medicine and sports conditioning over the last 20 years
