

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

The Myth of Ability John Mighton, 2009-05-26 For decades teachers and parents have accepted the judgment that some students just aren't good at math John Mighton the founder of a revolutionary math program designed to help failing math students feels that not only is this wrong but that it has become a self fulfilling prophecy A pioneering educator Mighton realized several years ago that children were failing math because they had come to believe they were not good at it Once students lost confidence in their math skills and fell behind it was very difficult for them to catch up particularly in the classroom He knew this from experience because he had once failed math himself Using the premise that anyone can learn math and anyone can teach it Mighton's unique teaching method isolates and describes concepts so clearly that students of all skill levels can understand them Rather than fearing failure students learn from and build on their own successes and gain the confidence and self esteem they need to be inspired to learn Mighton's methods set forth in *The Myth of Ability* and implemented in hundreds of Canadian schools have had astonishing results Not only have they helped children overcome their fear of math but the resulting confidence has led to improved reading and motor skills as well *The Myth of Ability* will transform the way teachers and parents look at the teaching of mathematics and by extension the entire process of education
