section with Current Affairs till date      **Food and Cooking Skills Education** Anita Tull, 2018-01-29 Food and Cooking Skills Education FCSE is a complex mix of policy and practicality educational theory and pedagogy classroom and government policy This book shows how FCSE has been at the centre of a tussle between education and policy for decades It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready made food has become commonplace and public knowledge of where our food comes from is noticeably lacking This has contributed to the escalating incidence of diet related diseases and the attendant cost to society and threatened environmental sustainability In turn governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs Based on detailed research conducted across England and Wales as well as comparisons with thirty five other countries or states the author makes recommendations for policy to manage this challenge facing contemporary society      **Economic Development for Everyone** Mark M. Miller, 2017-05-09 How do we create employment grow businesses and build greater economic resilience in our low income communities How do we create economic development for everyone everywhere including rural towns inner city neighborhoods aging suburbs and regions such as Appalachia American Indian reservations the Mexican border and the Mississippi Delta and not just in elite communities Economic Development for Everyone collects organizes and reviews much of the current research available on creating economic development in low income communities Part I offers an overview of the harsh realities facing low income communities in the US today their many economic and social challenges debates on whether to try reviving local economies vs relocating residents and current trends in economic development that emphasize high tech industry and high levels of human capital Part II organizes the sprawling literature of applied economic development research into a practical framework of five dynamic dimensions empower your residents begin with basic education enhance your community build on existing assets encourage your entrepreneurs diversify your economy and sustain your development This book assembled and presented in a unified framework will be invaluable for students and new researchers of economic development in low income communities and will offer new perspectives for established researchers professional economic developers and planners and public officials Development practitioners and community leaders will also find new ideas and opportunities along with a broad view on how the many complex parts of economic development interconnect      *Shadow Education and Social Inequalities in Japan* Steve R. Entrich, 2017-12-07 This book examines why Japan has one of the highest enrolment rates in cram schools and private tutoring worldwide It sheds light on the causes of this high dependence on shadow education and its implications for social inequalities The book provides a deep and extensive understanding of the role of this kind of education in Japan It shows new ways to theoretically and empirically address this issue and offers a comprehensive

perspective on the impact of shadow education on social inequality formation that is based on reliable and convincing empirical analyses. Contrary to earlier studies, the book shows that shadow education does not inevitably result in increasing or persisting inequalities but also inherits the potential to let students overcome their status specific disadvantages and contributes to more opportunities in education. Against the background of the continuous expansion and the convergence of shadow education systems across the globe, the findings of this book call for similar works in other national contexts, particularly Western societies without traditional large scale shadow education markets. The book emphasizes the importance and urgency to deal with the modern excesses of educational expansion and education as an institution in which the shadow education industry has made itself seemingly indispensable.

*Risk Society and School Educational Policy* Grant Rodwell, 2018-09-14. *Risk Society and School Educational Policy* explores the impact of risk society on policy in the US, UK and Australia through both practical and theoretical perspectives. The book develops an in depth understanding of risk society itself and guides the reader in applying this knowledge to the problem of how this impacts policy and practice in school education. Drawing on work by Ulrich Beck and Anthony Giddens, Rodwell explores the development of risk society as a field of interest, discussing its history, contemporary significance and links with neoliberalism, school education and both mainstream and social media. He also examines its impact on government policies and the practical implications of how this impacts the educational experiences of children around the globe today. A book for policy professionals, researchers, academics and postgraduate students interested in Education Studies, Theory and Policy, and International and Comparative Education. *Risk Society and School Educational Policy* is the first international academic monograph published in the field.

**Marijuana Federalism** Jonathan H. Adler, 2020-03-17. On marijuana, there is no mutual federal state policy; will this cause federalism to go up in smoke? More than one half the 50 states have legalized the use of marijuana at least for medical purposes, and about a dozen of those states have gone further, legalizing it for recreational use. Either step would have been almost inconceivable just a couple decades ago. But marijuana remains an illegal controlled substance under a 1970 federal law, so those who sell or grow it could still face federal prosecution. How can state and federal laws be in such conflict? And could federal law put the new state laws in jeopardy at some point? This book, an edited volume with contributions by highly regarded legal scholars and policy analysts, is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws. *Marijuana Federalism* surveys the constitutional issues that come into play with this conflict, as well as the policy questions related to law enforcement at the federal versus state levels. It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects. Readers will gain a greater understanding of federalism in general, including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels. This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization.
