Academy status to secondary schools the Coalition extended it to primary and special schools The result is that there has been a dramatic increase in the number and diversity of Academies In addition to this the 2010 Act introduced Free Schools wherein groups of parents teachers or other sponsors can apply to start their own state maintained but officially independent schools These schools can either be completely new or the result of existing private schools applying to become state maintained The results of these changes remain under researched This book puts forward new research that examines the history and nature of Academies and Free Schools the processes by which they have come into existence and their effects in terms of social justice The contributors do not all speak with one voice but rather present a diversity of views on these important topics Included in the collection are the results of research on pupil outcomes and socio economic segregation issues of identity and ethos in church academies the problems of establishing free schools the history of policy on Academies and a comparison between Swedish independent schools and Academies and Free Schools This book was originally published as a special issue of Research Papers in Education *English Language Teaching in South America* Lía D.
