

One morning, Hiss and Tortoise watched the train come and go. "I think I'm as fast as those trains," Hiss said. "Maybe faster."

Tortoise giggled. "You are fast, my friend, but you are not as fast as a train."

Hiss did not laugh. "Well, I may not be as fast as a train, but I am certainly faster than you," he said.

your hotels are world class but the roads leading to them are so potholed Why don t you lower your voice when you make fun of your politicians Why do you control the price of oil and cable TV Clearly there s a huge difference in how India and its arch rival China work on the ground China is spectacularly effective in building infrastructure and is now reinvesting almost half its GDP Meanwhile India is still a promising economy more than half its GDP is consumed by its billion plus people yet India has some unique advantages Half its population is under twenty five giving it a strong demographic edge 350 million Indians understand English making it the largest English speaking country in the world and it s the world s largest democracy In the race to superpower status who is more likely to win China s hare or India s tortoise Bahl argues that the winner might not be determined by who is investing more and growing faster today but by something more intangible who has superior innovative skills and more entrepreneurial savvy He notes that China and India were both quick to recover from the financial crisis but China s rebound was accompanied by huge debt and deflation with weak demand India s turnaround was sturdier with lower debt and modest inflation So India s GDP grew twice as fast as China s for a few quarters the first time that had happened in nearly three decades And in contrast to China s Yuan which is pummeled for being artificially undervalued India s rupee largely floats against world currencies In the end it might come down to one deciding factor can India fix its governance before China repairs its politics With insights into the two countries histories politics economies and cultures this is a well written fully documented comprehensive account of the race to become the next global superpower For anyone looking to understand China India and the future of the world economy this is the book to read
