Goscinski, 2015-01-15 John Benumeane a budding solar engineer who's just moved to Southern California learns the hard way how cruel and unrelenting Mother Nature can be It's the winter of 2004 an El Niño is back with a vengeance A horrific weather related accident a car collision with a two hundred year old eucalyptus tree lands John in the hospital where he'll spend the next two years in a coma locked in a struggle between life and death He awakens in a different world than the one he left Although he suffers no physical impairment from the terrible accident he finds he has a supernatural power that slowly takes control of his life His own impetuous behavior is rivaled only by that of his wife who in her own bid to survive the lonely years without him has reinvented herself in ways that defy description The challenge for the two young lovers is to find common ground that will lead them back to the life they once knew But that ground is elusive and unstable prompting John's

wife to turn to John's old college friend for help and when she does the plot thickens. By then a drought has gripped the Lower Forty Eight and the real estate market is hyperventilating from reckless malfeasance with John's wife in the center of it all. The people she works for want to own John and the very special gift he's come to possess but she has other ideas. Her story within a story has twists and turns that will keep you guessing till the very end.

VW GTI, Golf, Jetta, MK III & IV

Kevin Clemens, Volkswagen's GTI, Golf and Jetta are long time favorites among sport compact performance enthusiasts. With engines ranging from the 2.0 liter naturally aspirated four cylinder to the 1.8 liter turbo 4 to the VR6 the Mk III and Mk IV generations 1993-2004 offer tuners a wealth of opportunities. This book turns these opportunities into realities from deciding which vehicle to buy to keeping it running in tip top condition to enhancing the performance and appearance of your VW. Focusing on the engine, wheels and tires, suspension, body kits, interiors and more, each project includes straightforward instruction along with details about the necessary parts, cost, time and skill. If you want to get the biggest bang for your VW buck, this book is your road map.

Diana Inquest John Morgan, 2009. The Untold Story exposes high level corruption in the 21st century British justice system. It reveals how judicial corruption led to a seriously flawed verdict at the inquest into the deaths of Princess Diana and Dodi Fayed. It provides a thorough record of the key evidence that was heard by the inquest jury and details the 143 important witnesses who were not heard from during the inquest. The book reveals the critical relevance of the evidence from the original police statements that the jury were prevented from having access to. This untold story destroys the perception that the inquest achieved justice for the deceased occupants of the crashed Mercedes. It clearly outlines the methods employed by the royal coroner to continually manipulate the jury throughout the six months of the inquest. This is the gripping true account of a judiciary hell bent on ensuring that the jury would not be permitted to return a verdict of murder in the most significant and high profile inquest of our modern era.
