Documents of the Assembly of the State of New York New York (State). Legislature. Assembly,1913 *Councillors on the Frontline* Great Britain: Parliament: House of Commons: Communities and Local Government Committee,2013-01-10 Councillors have a vital role to play if communities are to make the most of the opportunities offered by localism and people from all walks of life should be encouraged to stand at local elections Councillors are spending less time in council chambers and more time out and about in their communities In future they will increasingly need to be on the frontline working with constituents and external organisations such as GPs schools police local businesses and voluntary organisations to ensure

their communities make the most of all the opportunities available to them The Committee also found that both local and central government had to devolve power and resources to support councillors The Committee identifies three key practical barriers to people becoming and remaining councillors Some people are put off by the time commitment involved Employers do not always take a positive view of staff becoming councillors and may not give them the support or time off required The levels of allowances paid to Councillors to cover their expenses as few councillors will vote themselves higher allowances even if there is a legitimate reason for doing so because it provokes so much public controversy councils should be given the power to transfer decisions about allowances to independent local bodies The inquiry also raised questions about the support and training that councillors receive Several innovative models for empowering councillors are also mentioned in the report such as devolving budgets giving councillors front line duties and an ability to respond rapidly to local concerns *Aiming for Global Accounting Standards* Kees Camfferman, Stephen A. Zeff, 2015-03-26 The International Accounting Standards Board IASB and its International Financial Reporting Standards IFRSs have acquired a central position in the practice and regulation of financial reporting around the world As a unique instance of a private sector body setting standards with legal force in many jurisdictions the IASB's rise to prominence has been accompanied by vivid political debates about its governance and accountability Similarly the IASB's often innovative attempts to change the face of financial reporting have made it the centre of numerous controversies This book traces the history of the IASB from its foundation as successor to the International Accounting Standards Committee IASC and discusses its operation changing membership and leadership the development of its standards and their reception in jurisdictions around the world The book gives particular attention to the IASB's relationships with the European Union the United States and Japan as well as to the impact of the financial crisis on the IASB's work By its in depth coverage of the history of the IASB the book provides essential background information that will enrich the perspective of everyone who has to deal with IFRSs or the IASB at a technical or policy making level
