### The administrative process

A process can be defined as a set of successive steps, phases or actions of a natural or artificial phenomenon. In the context of the study and practice of management, there are different approaches that have contributed to this discipline with a large number of theories, ideas or concepts from different points of view.

Administration has been studied through experience, decision-making, human relations, it has been studied as a social system, also with a quantitative approach and through the tasks performed by the professionals in the field.

Today, the concept of the administrative process is a fundamental part of management theory. Each one of the functions must be understood and carried out correctly by the management professional, and they have factors, principles, or aspects that, if not taken into account, the administrative process could not fulfill its objectives.

Having said that, the process begins with its first phase, which is planning. Organizations seek to achieve a goal in the future, and there are questions such as: What actions should be taken? How to reach that goal? When? Where? Why?

It highlights that the administrative process is related to each activity of the company and that the planning, organization, direction, and control are all part of the functions carried out there, such as marketing, finance, production, and personnel management and I can think it's evident that none of its principles or factors can't be ignored if the organization wants to be successful

either English or one of the Indian Languages included in the constitution's eighth schedule. The reason for including other languages to write an essay in the examination was that the mains examination should bring not only the candidate's language abilities but also her aptitude for understanding and critical analysis as well as the level of her integrated thinking, assimilation of ideas and clarity of expression. Clarity of thought can only come when you are fluent in a particular language. This holds importance even when writing answers for the UPSC Mains. If you can write a good answer in English, you do not need to worry about the Essay paper as it is intended to serve as the testing case over and above the academic and subject tests.

**Learner-directed Assessment in ESL** Glayol V. Ekbatani, Herbert D. Pierson, 2012-10-12. This text integrates the theory and practice of learner-based assessment. Written in response to two recent movements in language teaching: learner-centered teaching and a renewed interest in authenticity in language testing, it examines the relationship between the language learner and language assessment processes and promotes approaches to assessment that involve the learner in the testing process. Particular attention is given to issues of reliability and validity. Grounded in current pedagogical applications of authentic assessment measures, this volume is intended for and eminently accessible to classroom teachers and program directors looking for ways to include their students in the evaluation process: graduate students and professional language testers seeking authenticity in assessment and desiring to create more interactive evaluation tools.
