

HOW TO START AN ESSAY

DEFINITION

Starting an essay is the process of introducing the topic, purpose and main argument or thesis statement to the reader. It aims to capture the reader's attention and provide the clear direction for the essay. It usually includes a hook, background information of the thesis statement. It is the first impression on the reader and sets the tone for the rest of the essay.

Scientific Papers Made Easy Stuart West,Lindsay Turnbull,2023-01-30 Writing scientific publications is a fundamental step in the research process Furthermore as science becomes more interdisciplinary and the number of journals continues to expand individual papers increasingly need to stand out to be read and have any form of impact It is widely assumed that students and early career scientists will simply acquire the necessary expertise However this could not be further from the truth many early career scientists find writing both intimidating and overwhelming writing is a skill that needs to be learnt and actively developed This novel book s fundamental principle is simple the reader must come first The purpose of a scientific paper is to pass on knowledge and so impactful writing must focus on attracting holding and illuminating readers The authors demonstrate how just a few simple pointers can significantly improve both writing quality and impact They tackle each component of a paper in turn providing a simple framework that makes clear what needs to be included and what doesn t and in what order They also provide advice for writing up different types of science from laboratory experiments to theoretical modelling The focus throughout is on the need to use simple jargon free English and to assume that the reader has little or no prior knowledge In summary the book is about writing better scientific papers that are more likely to be read and have impact Scientific Papers Made Easy is targeted at a broad audience of students and professionals across the biological life and human sciences It uses simple biological and human examples that assume no prior knowledge and will resonate with any scientist

How to Write and Publish Effectively: Writing Support Group Guidelines Shyam Sharma, Surendra Subedi, Pratusha Bhowmik, Nasrin Pervin, How to Write and Publish Effectively: Writing Support Group Guidelines This report describes a writing support and accountability program voluntarily organized by and for a grassroots community in South Asia. Organized early 2020, which happened to be in the middle of the first wave of the Covid-19 global pandemic, this program recruited 24 scholars from a pool of 216 applicants from across South Asia: Bangladesh, India, Indonesia, Nepal, and Pakistan. A sign-up survey asked interested scholars who were invited through networking, snowballing on social media to describe a research project from which they would like to write an academic journal manuscript, learning and implementing writing skills along the way. While they were encouraged to share an empirical research project with a social impact in mind, theoretical projects were also included. We have described the broader social context and challenges influencing the vision and mission.
