Howard Nostrand's Nightmares Chilling Archives Of Horror Comics:

Howard Nostrand's Nightmares Howard Nostrand, 2014 Howard Nostrand's brilliant horror comics art was done during the height of the criticism against comics that resulted in government investigations and the Comics Code. Nostrand's style was an incredibly skilled perfect mashup of the EC artists Wally Wood and Jack Davis. Nostrand assisted Bob Powell, the subject of the popular book *Bob Powell's Terror*, but these comics are pure Nostrand, the very best of his fearsome comics. Like Powell, Nostrand could be as innovative as Will Eisner, another influence on the artist. Featuring five stories painstakingly reproduced from rare original art, *Nostrand's Nightmares* includes a profusely illustrated Introduction by Eisner winner Craig Yoe.

Graphic Novels Michael Pawuk, David S. Serchay, 2017-05-30 Covering genres from adventure and fantasy to horror, science fiction, and superheroes, this guide maps the vast terrain of graphic novels, describing and organizing titles to help librarians balance their graphic novel collections and direct patrons to read-alikes. New subgenres, new authors, new artists, and new titles appear daily in the comic book and manga world, joining thousands of existing titles, some of which are very popular and well known to the enthusiastic readers of books in this genre. How do you determine which graphic novels to purchase and which to recommend to teen and adult readers? This updated guide is intended to help you start, update, or maintain a graphic novel collection and advise readers about the genre. Containing mostly new information as compared to the previous edition, the book covers iconic super hero comics and other classic and contemporary crime fighter based comics, action and adventure comics including prehistoric heroic explorer and Far East adventure, as well as Western adventure, science fiction titles that encompass space opera, fantasy, aliens, post-apocalyptic themes, and comics with storylines revolving around computers, robots, and artificial intelligence. There are also chapters dedicated to fantasy titles, horror titles such as comics about vampires, werewolves, monsters, ghosts, and the occult, crime and mystery titles regarding detectives, police officers, junior sleuths, and true crime comics on contemporary life, covering romance, coming of age stories, sports, and social and political issues, humorous titles, and various nonfiction graphic novels.
