The Economics of Biofuels Stefania Bracco, 2016-06-17 Biofuels are a renewable source of energy used mainly for transportation They link together food energy and natural resources sectors and involve ecological social and inequality issues They are an emblematic example of the interactions between economic environmental social and political decisions and as a recent and complex issue require updated and detailed information to be understood This book aims to shed light on several economic social and environmental issues connected to biofuel production and policies The Economics of Biofuels adopts detailed descriptions rigorous data analysis and precise econometric methods to estimate the effects of biofuel on different socio economic factors avoiding complicated and sometimes ineffective models based on context specific parameters In particular the book focuses on the impact of bioenergy policy on biocommodity production and trade and on the related phenomenon of land acquisitions to grow biofuel commodities The book's main findings are derived by an original and unique dataset collecting information on the investors acquiring land in Africa and on the voluntary standard certification and labelling schemes adopted by them as Corporate Social Responsibility CSR strategy The analysis links together in an original way public and private initiatives to make biofuel sustainable Therefore this book represents an improvement in the understanding of biofuel production and policy's sustainability This book is of interest to those who study environmental economics agricultural economics and sustainable development It is also suitable for those in the renewable energy sector with a particular focus on biofuel sustainability

A Gendered Approach to the Syrian Refugee Crisis

Jane Freedman,Zeynep Kivilcim,Nurcan Özgür Baklacioğlu,2017-02-24 The refugee crisis that began in 2015 has seen thousands of refugees attempting to reach Europe principally from Syria The dangers and difficulties of this journey have been highlighted in the media as have the political disagreements within Europe over the way to deal with the problem However despite the increasing number of women making this journey there has been little or no analysis of women s experiences or of the particular difficulties and dangers they may face A Gendered Approach to the Syrian Refugee Crisis examines women s experience at all stages of forced migration from the conflict in Syria to refugee camps in Lebanon or Turkey on the journey to the European Union and on arrival in an EU member state The book deals with women s experiences the changing nature of gender relations during forced migration gendered representations of refugees and the ways in which EU policies may impact differently on men and women The book provides a nuanced and complex assessment of the refugee crisis and shows the importance of analysing differences within the refugee population Students and scholars of development studies gender studies security studies politics and middle eastern studies will find this book an important guide to the evolving crisis

Planning for a Material World Laura Lieto,Robert Beauregard,2015-11-06 Today urban scholars think of cities and regions as evolving through networks of human associations technologies and natural ecologies This being the case planners are faced with the task of navigating a profoundly material world Planning with and for humans alone is unacceptable in the unfolding of urban processes non human things cannot be ignored This inclusive vision has consequences for how planners envision the connections among norms technologies and life worlds as well as how they design and implement their plans The contributors to this volume utilize a variety of examples ecologically sensitive regional planning in Naples Italy congestion pricing in New York City and public participation in Europe among others to explore how planners engage a heterogeneous and restless world Inspired by assemblage thinking and actor network theory each chapter draws on this new materialism to acknowledge in quite pragmatic ways that spatial politics is a process of becoming that is inseparable from the materiality of urban practices

Geographical Data Science and Spatial Data Analysis Lex Comber,Chris Brunsdon,2020-12-02 We are in an age of big data where all of our everyday interactions and transactions generate data Much of this data is spatial it is collected some where and identifying analytical insight from trends and patterns in these increasing rich digital footprints presents a number of challenges Whilst other books describe different flavours of Data Analytics in R and other programming languages there are none that consider Spatial Data i e the location attached to data or that consider issues of inference linking Big Data Geography GIS Mapping and Spatial Analytics This is a learning by doing textbook building on the previous book by the same authors An Introduction to R for Spatial Analysis and Mapping It details the theoretical issues in analyses of Big Spatial Data and developing practical skills in the reader for addressing these with confidence
