Northeast American Sports Car Races 1950-1959 Terry O'Neil,2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding The transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in      Jaguar - The Last Classic XJ's James Taylor,2025-08-15 When Jaguar s XJ range arrived in 1968 it quickly established itself not only as a world beater but also as the central model in the Jaguar range Riding high throughout the 1970s it was nevertheless losing some of its appeal by the time Ford bought the Jaguar company at the end of the next decade These last three generations of the classic Jaguar XJ saloons closed an era in which Jaguar had symbolised the British approach to luxury motoring That it no longer reflected what many buyers wanted by the end was a sad reflection of the changing times but cannot take away from the excellence and desirability of the cars themselves Today increasingly prized by enthusiast owners these XJs in so many ways show the marque at its peak and this book highlights why that is so      **The British National Bibliography** Arthur James Wells,2000      *Jaguar/Daimler XJ6, XJ12 & Sovereign* Peter Crespín,2007 Just like having an expert by your side this unique book will help you work through the long list of XJ variants to choose the one that best suits your budget and intended use Full of practical first hand tips and pictures to guide even a classic car novice through all the stages of becoming a Jaguar or Daimler saloon owner Packed with 100 detailed pictures and with a unique points system to assess the condition of potential purchases this book is a must      **Three Hundred Club - Cars With a Top Speed Exceeding 300 KM/H: Volume 1 - World's Fastest Production Cars** ,      *Gale's Auto Sourcebook* 2 Karen Hill,1992-05 This book is designed to present in one convenient source comments published in periodicals about 325 automobile models manufactured since 1987 on a model by model basis These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models

The Autocar ,1988      Motor Cycling and Motoring ,1984      *British Leyland* James Taylor,2018-03-26 In 1968 British Leyland brought together many of Britain s motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates But this was not to be There have been many books about the politics and the business activities of British Leyland but British Leyland The Cars 1968 1986 looks exclusively at the cars that came from the company both the models it inherited and those it created The eighteen years of the corporation s existence saw a confusing multitude of different car types but this book resolves these confusions clarifying who built what and when The book takes 1986 as its cut off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group The book includes Production histories

and technical specifications of every major model The special overseas models Appendices on engines code names and factories Buying guidance on the models built in Britain This is the most comprehensive book so far to focus on the cars from British Leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details It is profusely illustrated with 178 colour and 63 b w photographs
