Davies, 2015-09-16 How History Works assesses the social function of academic knowledge in the humanities exemplified by history and offers a critique of the validity of historical knowledge The book focusses on history's academic disciplinary ethos to offer a reconception of the discipline of history arguing that it is an existential liability if critical analysis reveals the sense that history offers to the world to be illusory what stops historical scholarship from becoming a disguise for pessimism or nihilism History is routinely invoked in all kinds of cultural political economic psychological situations to provide a reliable account or justification of what is happening Moreover it addresses a world already receptive to comprehensive historical explanations since everyone has some knowledge of history everyone can be manipulated by it This book analyses the relationship between specialized knowledge and everyday experience taking phenomenology Husserl and pragmatism James as methodological guides It is informed by a wide literature sceptical of the sense academic historical expertise produces and of the work history does represented by thinkers such as Schopenhauer Nietzsche Valéry Anders and Cioran How History Works discusses how history makes sense of the world even if what happens is senseless arguing that behind the smoke screen of historical scholarship looms a chaotic world dynamic indifferent to human existence It is valuable reading for anyone interested in historiography and historical theory **The Broadview Reader in Book History** Michelle Levy, Tom Mole, 2014-10-23 Book History has
