Key Ideas in Law: The Rule of Law and the Separation of Powers Jack Beatson, 2021-07-29 Prompted by the events following the 2016 referendum on EU membership and written during the COVID 19 pandemic by one of the leading public lawyers of our day this book considers two key constitutional principles the rule of law and separation of powers by examining the generality certainty and predictability of law relations between the different branches of the state and the mechanisms of accountability within our democracy Since the referendum and in the light of the restrictions imposed to deal with the pandemic and the use of guidelines presented as rules to do so attention has refocused on the relationship and respective powers and competences of the three branches of the state the legislature the executive and the judiciary They have also placed strains on our unwritten constitution that have been unknown in modern times The role of the courts and of the rule of law has been dramatically

illustrated by recent litigation most notably the decisions on whether legislation was needed to serve notice of the UK's intention to leave the EU and whether the prorogation of the Westminster Parliament in 2019 was a matter for the courts as opposed to a political question for government. Set against this backdrop the book answers the following questions: How accessible is the law and how does it avoid arbitrariness? How is access to justice protected? How does our constitution reflect the separation of powers and the balance of responsibilities between law and politics? How does our democracy enable majorities and protect minorities?

Muslim Youth in the Diaspora Pam Nilan, 2017-02-17 In a world where the term Islam is ever increasingly an inaccurate and insensitive synonym for terrorism it is unsurprising that many Muslim youth in the West struggle for a viable sense of identity. This book takes up the hotly debated issue of Muslim youth identity in western countries from the standpoint of popular culture. It proposes that in the context of Islamophobia and pervasive moral panic young Muslims frame up their identity in relation to external conditions that only see good and bad Muslims on both sides of the ideological fence between Islam and the West. Indeed by attempting to break down the good versus bad Muslim dichotomy that largely derives from western media reports as well as political commentary *Muslim Youth in the Diaspora: Challenging Extremism through Popular Culture* will enlighten the reader. It illuminates the way in which diasporic Muslim youth engage with and are affected by the radical Islamist meta narrative. It examines their popular culture and online activity, their gendered sense of self and much more. This original book will be of interest to students and scholars interested in the fields of sociology, cultural studies and social anthropology. It offers a particular focus on Islam for research in youth studies, youth culture, political radicalisation and religious identity. It will also be relevant to the sector of youth and social work where practitioners seek to build cultural bridges with a new generation.

Science Fraud: Darwin's Plagiarism of Patrick Matthew's Theory Mike Sutton, 2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book *On Naval Timber and Arboriculture* and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858. Unjustly and against the Arago convention on priority, a ruling that gives origination of any science theory to the first to publish, Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough. Today Big Data research has uncovered Darwin's science fraud by plagiarism, revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew. Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew's work in published literature before 1858 and that several were known influencers of Darwin's and Wallace's work in the field. Additionally, several people in Darwin's and Wallace's social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book. This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context. Dr Mike Sutton further reveals using social science participatory observation methods and

experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism

Landmark Cases in Intellectual Property Law Jose Bellido, 2017-09-07 This volume explores the nature of intellectual property law by looking at particular disputes All the cases gathered here aim to show the versatile and unstable character of a discipline still searching for landmarks Each contribution offers an opportunity to raise questions about the narratives that have shaped the discipline throughout its short but profound history The volume begins by revisiting patent litigation to consider the impact of the Statute of Monopolies 1624 It continues looking at different controversies to describe how the existence of an author's right in literary property was a plausible basis for legal argument even though no statute expressly mentioned authors rights before the Statute of Anne 1710 The collection also explores different moments of historical significance for intellectual property law the first trade mark injunctions the difficulties the law faced when protecting maps and the origins of originality in copyright law Similarly it considers the different ways of interpreting patent claims in the late nineteenth and twentieth century the impact of seminal cases on passing off and the law of confidentiality and more generally the construction of intellectual property law and its branches in their interaction with new technologies and marketing developments It is essential reading for anyone interested in the development of intellectual property law

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the

innovative solutions designed by South African educators to a wider international audience
