legitimize administrative action and to combat corruption This book analyses the sources and functions of the pan European general principles of good administration and seeks to uncover how deeply they are rooted in the domestic legal systems of the CoE Member States It comprises 28 country reports dedicated to an in depth exploration of the impact of these standards on the national legal systems of the Member States written by respective experts on these systems It argues that the pan European general principles of good administration lead to a certain harmonization of the legal orders of the Member States with regard to the limiting function of administrative law despite the many fundamental differences between their administrative and legal systems It comes to the further conclusion that the pan European general principles of good administration can be considered as a concretization of the founding values of the CoE and describes the administrative law obligations a Member State entered into when joining the CoE Code of Federal Regulations ,2012 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **Third Semiannual Report on Activities During the 112th Congress, June 29, 2012, 112-2 House Report 112-574, \*** ,2012
