edition contains the original most impactful 500 words which cover many topics from persuading others relationships financial issues science and technology and more words that ensure you will be a great conversationalist and rise fast in your chosen profession And best of all you ll be provided with an additional 200 words which according to research have become particularly important in the last 8 years particularly since the worldwide pandemic Those words will cover topics like the new world of virtual work health topics Artificial Intelligence and much more Research shows that learning new words has an exponential effect on the size of your vocabulary since learning one word naturally produces an association between two to three more words In short after listening to and applying the system in this 30 day program you will not only have a bigger vocabulary you will have a brighter future
