The Flexitarian Cookbook Ryland Peters & Small,2019-08-13 Less of a rigid regime and more of an organic attempt to eat a mainly vegetarian diet *The Flexitarian Cookbook* features delicious plant centric recipes with options for incorporating meat or fish as needed Many of us are looking to eat less meat and or fish as the host of environmental ethical and health related reasons for doing so stacks up The concept of not centring every meal around an animal based protein is well on its way to settling into mainstream society But out there there is a whole middle ground of home cooks placed somewhere between carnivore and vegan who are doing their best to reduce meat consumption but enjoying it on occasion when the urge strikes the flexitarians *The Flexitarian Cookbook* is a collection of delicious modern vegetarian recipes with simple options for switching in meat or fish as the mood takes you No longer will flexitarians have to juggle between multiple cookbooks or haphazardly hash together a meaty ending to a recipe depending on their cravings Recipes include a warm curried lentil salad with crispy paneer and spiced dressing but the paneer can be swapped for crispy prawns if preferred A winter vegetable stew with herbed dumplings is substantial enough on its own but this cookbook gives the option to add slow cooked beef cheeks if you like A best ever recipe for vegetable and lentil moussaka offers the option to swap the lentils for
