Businesses benefit directly from selling through online channels. The direct connection between the customer and the product usually leads to a faster time to market. It also allows businesses to provide personalized services and offers to their customers. Selling online also allows businesses to reach a wider audience. The online market is growing rapidly, and businesses that do not have an online presence are at a disadvantage. The online market is also a more competitive market, and businesses that do not have an online presence are at a disadvantage. The online market is also a more competitive market, and businesses that do not have an online presence are at a disadvantage.

**Abstract:** *Hyperbolicity* (Hypothesis H) is a property of a metric space that is closely related to the property of being a hyperbolic group. We prove that a metric space is hyperbolic if and only if it is a hyperbolic group. This result is a generalization of the result of Gromov (1987) that a finitely generated group is hyperbolic if and only if it is a hyperbolic group.
