Facilitator's Guide - Item 5424 , *Ending Spouse/Partner Abuse* Robert Geffner, Carol Mantooh, 1999-10-06 This clinician's manual and workbook were developed to provide alternatives in the efforts to reduce the national epidemic of spouse partner maltreatment. Geffner and Mantooh describe a model incorporating several theories and approaches of psychotherapy while focusing on abuse as a primary issue. The program and techniques have been used and improved for more than 15 years in programs across the country. The clinician will receive a comprehensive intervention program that includes 26 weekly sessions that address how to initiate the foundations for a therapeutic relationship, communicate and express feelings, teach self management and assertiveness techniques, discuss intimacy issues, and implement a relapse prevention program. Each session contains brief intervention techniques, handouts, and homework assignments. The advantage of this approach is its flexibility. Modifications to the order in which the sessions are conducted can be made by trained clinicians to fit the needs of their clients.

A Safe Place for Women Kelly White, 2011-01-11 There is life, joy, and love after abuse. As a young wife and mother, Kelly White experienced violence and terror at the hands of her husband. She knows firsthand the love-hate relationships women often have with their abusers and the devastating effects these feelings can have on independence and self confidence. She has sought refuge in a women's shelter, worked to obtain help from law enforcement, and struggled financially and emotionally as a single mother and sole breadwinner. Twenty five years later, as the leader of nationally recognized programs for battered women, she has helped thousands of women and children rebuild their lives. White's own story and those of other women who have survived and thrived are related here. She also provides practical tools for abused women and the friends, family, and professionals who seek to help them. You learn to recognize dangerous red flags and break through denial, use the legal, law enforcement, and organizational resources available in your community, overcome fear and stress to build a new life, discover the ways in which you are more powerful, competent, and capable than you thought. White includes important information on the impact of domestic violence on children, the role of drugs and alcohol in abuse, violence against people with disabilities, and battering in the lesbian, gay, bisexual, transgendered communities. While violence against women is not a thing of the past, using this resource can help battered women make it a part of their pasts and create a safe and fulfilling future for themselves and their children.

Handbook of Clinical Family Therapy Jay L. Lebow, 2012-07-05 The latest theory, research, and practice information for family therapy. The last twenty years have seen an explosion of new innovative and empirically supported therapeutic approaches for treating families. Mental health professionals working with families today apply a wide range of approaches to a variety of situations and clients using techniques based on their clinically and empirically proven effectiveness, their focus on specific individual and relational disorders, their applicability in various contexts, and their prominence in the field. In this accessible and comprehensive text, each chapter covers specific problems, the theoretical and practical elements of the treatment approach, recommended intervention strategies, special considerations, supporting research, and clinical examples. The contributors provide step by step guidelines for implementing

Addressing violence against women in pre-service health training World Health Organization,2023-03-21 The aim of this document is to provide pre service health training

programmes such as in medical nursing and midwifery schools with the knowledge and resources to better prepare their students to care for women subjected to violence Curriculum content on caring for women subjected to violence can ensure future generations of the health workforce are equipped to provide empathetic high quality care to those subjected to or affected by violence This guide should be used in conjunction with the WHO Violence against Women Curriculum

Gender Inclusive Treatment of Intimate Partner Abuse John Hamel,2005-02-08 This breakthrough handbook for mental health professionals and educators offers practical hands on information for conducting assessments and providing treatments that take the entire family system into account Rich with research that shows women are abusive within relationships at rates comparable to men the book eschews the field s reliance on traditional domestic violence theory and treatment which favors violence interventions for men and victim services for women and ignores the dynamics of the majority of violent relationships Thus the author identifies and measures protocols that help practitioners make accurate assessments for both men and women and then carefully selects the treatment modality and curricula for group couples and or individual work that will help clients break their particular cycle of violence while ensuring victim safety
