Faculty Of Economic And Management:

Calendar University of the Free State. Faculty of Economic and Management Sciences, 2002 Economics, Management, & Econometrics Ahmet Mete Çilingirtürk, Anne Albrychiewicz-Słocińska, Besim Bülent Bali, A Pioneer of Management Research and Education in Japan Norio Kambayashi, Kyohei Hirano, Izumi Mitsui, 2023-05-23 The purpose of this book is to clarify the mission and history of Kobe University Business School KUBS not only for the development of management education but also for the familiarization of industry in Japan with the ideas of modern management Kobe University was the first in Japan to establish a faculty of business administration and has continued to conduct research and education in the field to this day Under the influence of Germany and the USA the academic area of management in Japan has achieved unique development not witnessed in other countries Since 1902 when its predecessor Kobe Higher Commercial School was established KUBS has been a pioneer of research and education in management studies in Japan by overcoming many obstacles and difficulties Even now in the age of globalization the spirit of innovation and liberal academic style from the time of its establishment are inherent in KUBS and the faculty members have made great efforts to be innovative in management studies This book aims to explore the mission and history of KUBS and to elucidate the development process of Japanese style management research and education by introducing the diverse areas of management studies and the profiles of researchers **Economic Development and Resilience by EU Member States** Simon Grima, Inna Romănova, GrațIELA-Georgiana Noja, Tomasz Dorożyński, 2024-11-18 The chapters collected here examine the economic development main experiences lessons learned and the challenges and perspectives ahead of the new member states of the EU to identify the determinants of imbalances in the economic development of these countries 23rd European Conference on Knowledge Management Vol 2 Piera Centobelli, Roberto Cerchione, 2022-09-01 **Global and Regional Economic Inequality** Stanisław Maciej Kot, Katarzyna Ostasiewicz, 2019-11-11 Global economic inequality has attracted the attention of researchers and policy makers for several years Globalization has raised questions about its impact on global inequality and poverty However the recent answers to such questions are ambiguous According to some researchers global inequality increases Other economists hold that inequality decreases One can also find the opinion that global inequality does not exhibit any visible increasing or decreasing trend One may ask the question what the reason of such variety of opinions about global inequality is The lack of countries statistical income data comparable across countries and years seems to be the main reason of controversial conjectures concerning global inequality and its evolution over time Global samples of individual income data on a worldwide scale would be ideal for this purpose However such micro data are currently available only for a limited number of countries and years In the databases which purport to collect income data on a worldwide scale only some summary statistics quantile income shares means Gini indices are presented However countries Gini indices cannot be used for the evaluation of global inequality since this measure of inequality is not decomposable

Therefore the development of efficient methods of extracting micro data from available secondary statistics now seems to be the only way of overcoming the scarcity of national household surveys samples The recent ungrouping methods have several shortcomings among them unknown statistical reliability and the limited coverage of countries are the most serious In this monograph a new method of retrieving the global sample of incomes is proposed This method based on the Sequential Probability Ratio Test generates random samples which reconstruct unavailable national samples with predetermined statistical reliability and numerical precision The application of this method brings empirical evidences which contradict the widespread opinion about rising global inequality in two recent decades

Tourism in Turkey Ahmet Salih İköz,2021-06-24 Tourism in Turkey A Comprehensive Overview and Analysis for Sustainable Alternative

Tourism is an informative study that analyzes the Turkish tourism from a variety of different perspectives and sheds light on its vast economic and social impacts. The volume takes into account Turkey's popularity as a tourism destination that attracts many visitors compared to the other popular destinations yet its per capita earnings is low and suffers from declining foreign visitors. This volume emphasizes sustainable alternative tourism as a way forward. The Turkish hospitality and travel sector contribute significantly to the country's GDP and is responsible for a considerable level of employment in Turkey. The volume discusses the development stages of tourism sector in Turkey in the light of policy changes that parallel the economic, political, social and administrative transformations in Turkey. With the country's favorable location, existing potential, mega projects and ambitious targets set for 2023, the tourism sector needs to implement sustainable tourism measures in order to grow.

Artificial Intelligence, Digitalization and Regulation Nadia Mansour, Lorenzo M. Bujosa Vadell, 2024-12-03. This edited volume explores the relationship between Artificial intelligence (AI) business performance and regulation. Artificial intelligence allows entrepreneurs to create universally transferable platforms and customers to find the offer they want. Indeed, AI is an excellent tool for competitiveness and innovation. It can contribute to a positive business performance by reducing costs, analyzing and exploiting data, optimizing marketing strategy and advertising targeting and improving the customer experience. However, Artificial intelligence can also generate threats such as disinformation, manipulation and false content. Companies are increasingly becoming obliged to take security measures to protect digital data against cyber attacks and data leaks. This volume presents concepts and solutions for companies aiming not only to benefit from the newest technological developments in AI but also interested in tackling the challenges that come with the use of these technologies.

[ECKM2014-Proceedings of the 15th European conference on Knowledge Management](#) Carla Vivas, 2014-10-01. The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain. This provides an illustration that in order to create new or modified knowledge practices, strengthen customer relationships and thus positively influence customer satisfaction, organizations must be flexible in configuring, combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer. It must simultaneously develop effective strategies for updating the

knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services Thus unlearning forgetting becomes a critical means for organizational success The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in depth understanding of learning and unlearning to better understand knowledge management Our aim is to stimulate breakthrough research streams linking learning unlearning and knowledge management How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices and processes Building upon existing work on knowledge management KM and organizational learning the conference will promote interdisciplinary approaches from computer science and information systems business management and organization science as well as cognitive science Emphasis will be put on systematic learning from experience KM tools and KM success factors A special interest belongs to knowledge management initiatives which are lightweight i.e. do not place considerable additional burden on users and KM experts allow an incremental adoption i.e. do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics Continuing the success of the ECKM conference series since 2000 the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations
