Festive Sounds Carl Ferdinand Wilhelm Walther,2008 *Death Rituals and Politics in Northern Song China* Mihwa Choi,2017-10-03 In traditional China a funeral and the accompanying death rituals represented a critical moment for the immediate family of the deceased to show their filial piety a core value of the society At the same time death rituals were social occasions and channels for the outward demonstration of belief in a religiously pluralistic society During the Northern Song period however death rituals increasingly became an arena for political contention as attempts were made to transform these practices from a private matter into one subject to state control Death Rituals and Politics in Northern Song China examines how political confrontations over the proper conduct of death rituals during Northern Song dynasty 960 1127 inaugurated a period of Confucian revivalism Mihwa Choi interprets Northern Song court politics family ritual practices burial practices and the popular imagination of the afterlife as sites of contest between groups of varying social status political vision and religious belief She demonstrates that the oversight of ritual affairs by scholar officials helped them gain the political upper hand they sought and more broadly fostered a revival of

Confucianism as the dominant value system of Chinese society in the period that followed

The Hour of Our Death Philippe Aries, 2013-11-06 An absolutely magnificent book The New Republic the fruit of almost two decades of study that traces the changes in Western attitudes toward death and dying from the earliest Christian times to the present day A truly landmark study The Hour of Our Death reveals a pattern of gradually developing evolutionary stages in our perceptions of life in relation to death each stage representing a virtual redefinition of human nature Starting at the very foundations of Western culture the eminent historian Phillipe Ari s shows how from Graeco Roman times through the first ten centuries of the Common Era death was too common to be frightening each life was quietly subordinated to the community which paid its respects and then moved on Ari s identifies the first major shift in attitude with the turn of the eleventh century when a sense of individuality began to rise and with it profound consequences death no longer meant merely the weakening of community but rather the destruction of self Hence the growing fear of the afterlife new conceptions of the Last Judgment and the first attempts by Masses and other rituals to guarantee a better life in the next world In the 1500s attention shifted from the demise of the self to that of the loved one as family supplants community and by the nineteenth century death comes to be viewed as simply a staging post toward reunion in the hereafter Finally Ari s shows why death has become such an unendurable truth in our own century how it has been nearly banished from our daily lives and points out what may be done to re tame this secret terror The richness of Ari s s source material and investigative work is breathtaking While exploring everything from churches religious rituals and graveyards with their often macabre headstones and monuments to wills and testaments love letters literature paintings diaries town plans crime and sanitation reports and grave robbing complaints Aries ranges across Europe to Russia on the one hand and to England and America on the other As he sorts out the tangled mysteries of our accumulated terrors and beliefs we come to understand the history indeed the pathology of our intellectual and psychological tensions in the face of death

The Death of God and the Meaning of Life Julian Young, 2014-05-16 What is the meaning of life In today s secular post religious scientific world this question has become a serious preoccupation But it also has a long history many major philosophers have thought deeply about it as Julian Young so vividly illustrates in this thought provoking second edition of The Death of God and the Meaning of Life Three new chapters explore S ren Kierkegaard s attempts to preserve a Christian answer to the question of the meaning of life Karl Marx s attempt to translate this answer into naturalistic and atheistic terms and Sigmund Freud s deep pessimism about the possibility of any version of such an answer Part 1 presents an historical overview of philosophers from Plato to Marx who have believed in a meaning of life either in some supposed other world or in the future of this world Part 2 assesses what happened when the traditional structures that give life meaning began to erode With nothing to take their place these structures gave way to the threat of nihilism to the appearance that life is meaningless Young looks at the responses to this threat in chapters on Nietzsche Heidegger Sartre Camus Foucault and Derrida Fully revised and updated throughout this highly engaging exploration of

fundamental issues will captivate anyone who's ever asked themselves where life's meaning if there is one really lies. It also makes a perfect historical introduction to philosophy particularly to the continental tradition.

Dogon Songs of Life and Death W.E.A. van Beek, Oumarou S. Ongoiba, Atimè D. Saye, 2025-04-24

Though the Dogon are well described, their culture still holds surprises. One of these is the cycle of songs called *baja ni* which is at the heart of their funerary rites. These songs are attributed to a historic author, a blind poet-prophet who roamed the area in the nineteenth century and left a huge heritage of songs and prophecies. This book gives the full text of one performance of this legacy. The lyrics cover a range of topics from comments on historical events to philosophical musings about life and death and from remembering the departed to celebrating the joys of being alive.
